Kennedy's Given Boost By Johnson

Shares Campaign Trail To Plug Him For U.S. Senate

NEW YORK (AP) — President Johnson took Robert F. Kennedy in tow today in an effort to boost the former attorney general's chances of winning a Senate seat from New York.

Obviously satisfied with his own political prospects in the Empire State, Johnson planned to share day-long campaigning with Kennedy.

Kennedy will be with Johnson when the President makes a flying swing into Upstate New York for speeches in Rochester and Buffalo.

Then, back in New York City, the schedule calls for a motorcade with Johnson and Kennedy in sections of Brooklyn with heavy Jewish and Italian populations.

And at night, Johnson and Kennedy will be together again when the President speaks before a Madison Square Garden rally of the New York Liberal party.

Even Kennedy's most active supporters concede that he faces a tough fight in his efforts to unseat Sen. Kenneth B. Keating, R-N.Y., in the November election.

Keating supporters insist the incumbent is ahead at present.

Kennedy and his wife, Ethel, who is expecting her ninth child in November, were at LaGuardia Airport Wednesday when Johnson arrived after speeches in New Jersey and Pennsylvania.

After Johnson reached his hotel, he conferred with Kennedy, and later they visited Mrs. John F. Kennedy in her new duplex apartment on Fifth Avenue.

But Johnson had to call off plans to make some video tapes with Kennedy for use in Kennedy's campaign because of the President's hoarse voice resulting from his recent strenuous 15-state, 10,000 mile Western campaign tour.

Johnson hit the campaign trail again today after a major foreign policy speech Wednesday night at the annual dinner of the Alfred E. Smith Memorial Foundation.

Johnson said this country is, and will remain, the strongest nation on earth, and will always be ready to defend freedom. He said strength and courage are essential to a sound foreign policy, but likened them to the fuel of an airplane.

"You can't go without it," he said. "But neither would it take you where you want to go. For that you need a sense of direction, caution in the cockpit, and an experienced pilot."

Water Crews End Work On 400-Foot Line

Crews completed work Wednesday at 5 p. m. on installation of a new 400-foot section of 6-inch water line extending along St. Clair Ave. from Henry Ave. to Fisher Ave., Supt. Donald T. Duke said today.

The new main replaces another line of the same size that was at a depth too shallow for the St. Clair Ave. rebuilding project, the superintendent explained. Total cost of the project was $13,651.

The line went into service after both ends were tied in with existing mains and with a fire hydrant near the entrance to Riverview Cemetery, Duke explained. A slight grade in the vicinity of the cemetery is scheduled to be cut down as part of the $800,000 St. Clair Ave. rebuilding, he pointed out.

Duke also announced that crews have completed work on replacing a new valve on a main and an obsolete fire hydrant in the vicinity of McKinley School on Ambrose Ave.

Water was turned off Tuesday at 3 p. m., so as not to interfere with the school's classes, and the work was finished about 7 p. m., he said.

The shutdown affected Ambrose Ave. from Laura Ave. west, Riley Ave. and Eugene Pl. There was a leak in the obsolete fire hydrant, but it could not be turned off because of the defective valve, Duke said. A new valve was installed in the main at the same time.

'Rising Tide Of Doubt And Dismay'

Goldwater Says Johnson Shadowed By Suspicions

HARLINGEN, Tex. (AP) — Sen. Barry Goldwater said today there is "a rising tide of doubt and dismay. . . all across the land" concerning the presidency and charged President Johnson is "shadowed by suspicions which no amount of handshaking and hurrah can chase away."

The Republican presidential nominee said Johnson's "great and good friend, Bobby Baker, has been exposed as a manipulator of high office," and the President's "name and office is linked with that of a convicted criminal, Billie Sol Estes."

Goldwater swung into south Texas for a day of campaigning after two days before large, enthusiastic crowds as he moved back and forth across the Midwest farm belt and on to the edge of the Rocky Mountains for a rally Wednesday night in Denver.

In a speech prepared for his first Texas stop in Harlingen, Goldwater returned to the attack on the Bobby Baker case — the issue he said hurts Johnson most. He paired this with the Billie Sol Estes affair.

Estes, a Pecos, Tex., financier, has twice been convicted for fraud.

The Arizona senator said the President "must be using every power of his great office, right now, yesterday and tomorrow, to cover up one of the sorriest rumors we have had in the nation's capital."

In response to a question before he delivered the speech, Goldwater said he meant rumors about Bobby Baker's ties with the White House.

In his campaigning, Goldwater said he had found something troubling the people of America.

He added: "The people have looked at the White House and have found it dark with scandal. The latest Bobby Baker investigation has been called off until after election. The latest report on Billie Sol Estes has been a whitewash."

But Goldwater said Bobby Baker couldn't "be brushed aside as a factor in the election" and "men and women all over America know that Billie Sol Estes was a friend of the man who now occupies the White House and that he dealt with the principal assistants of the man who now occupies the White House."

The Arizona senator added that, "his assistants who dealt with his friends, Billie Sol and Bobby B., are protected behind a whitewash curtain in the White House itself."

He said Americans "seek many different things from a president in a political sense — but morality is another thing. Americans expect every president, regardless of his promises and his programs, to at least talk straight and act straight."

"There can be no substitute for honesty in public office," Goldwater said, adding that this "was the issue that is eating at the integrity of the highest office in the land."

The Arizona senator swung from Milwaukee to the Rockies Wednesday, slamming at the Bobby Baker case and calling for taking away the great concentration of power in Washington.

He told a cheering crowd of more than 13,000 at the Denver Coliseum he would take off "bureaucratic shackles" and get the Bobby Baker case "cleared up in a hurry."

Cable Franchise Rejected By Hall

Mayor Merrill D. Hall today vetoed an ordinance enacted by Council Oct. 5 that granted a New Jersey concern a 15-year franchise to operate a community television cable service in East Liverpool.

Citing franchise payments offered subsequently by another concern that would bring the city "several thousand dollars" in revenue over the 15-year span, the mayor disapproved the legislation that granted the exclusive operating right to Rego Industries, Inc., of Hoboken.

—:—

THE VETOED ordinance will be returned to Council at its meeting Monday night, along with an explanatory message from the mayor.

Council evidently will be able to muster the five votes required to override the veto. All six Democratic members of Council voted for the legislation when it was approved under suspension of the rules nearly two weeks ago. The lone Republican, Councilman Robert W. Sample, was absent.

The mayor summarized his reasoning in announcing the veto today. He said the full text of his veto message will not be made public until it is received officially by Council.

—:—

HE SAID since the franchise was granted Oct. 5 he has received a proposal from another firm, an Ohio corporation, seeking a franchise at a lower charge to its customers and offering a franchise fee to the city "amounting to several thousand dollars."

He did not name the concern, but said it will file a proposition with Council.

The mayor said he feels the question deserves more study by Council.

The mayor also cited a variation in the company's monthly charges to customers as explained to Council in its meeting Sept. 8, and the rates stipulated in the ordinance.

He said the company originally quoted a monthly charge of $4.50 to $4.95, but the legislation enacted by Council calls for a rate of $5.50, subject to a 10 per cent discount for prompt payment. That makes the net rate $4.95.

—:—

THE MAYOR also said he believes the franchise ordinance should contain a clause requiring the firm to remove all its wires, lines and other gear from the city if it discontinues business. There's no such provision in the legislation, he said.

The decision to grant the franchise to Rego was made at Council's meeting Sept. 8 on recommendation of the planning committee, headed by Councilman William Davis. He said Rego appeared to offer the best proposition among firms that filed offers.

In Wellsville Police Case

Ohio Civil Service Group Rules In Favor Of Amato

The Wellsville Civil Service Commission has received an apparently unsought opinion from the Ohio Civil Service Commission at Columbus in regards to the Charles Amato police case.

The letter, directed to the commission and signed by Lowell Fess, secretary of the State Personnel Board of Review, states that Amato is to be entered on the records as a patrolman and be given the protection of Civil Service laws. The Wellsville commission did not seek the opinion.

Copies were sent to Donald Lowe, commission clerk, Amato, Mayor William Daugherty and Safety-Service Director Fred Baldasare.

Amato has filed suit in Common Pleas Court at Lisbon seeking to have himself declared as a legal, full - time patrolman on the police force.

The hearing is expected to be held sometime in near future. The latest action is another in a series of suits, counter-suits and court actions in the hassle.

A copy of the letter has been turned over to Solicitor William Bush. He said today that his immediate advice to the commission would be to take no action on the letter at this time.

Bush indicated there were many questionable points in the letter.

The letter follows:

"Upon the factual situation presented to us that Charles Amato was appointed to the police force on or about Nov. 13, 1958, as an extra patrolman and served as such; that in June of 1963 a vacancy arose on the police force of the city of Wellsville and from that time forward, Charles Amato continued to serve as a patrolman in the city of Wellsville; that Charles Amato having taken and passed an open competitive examination given by the Civil Service Commission of the city of Wellsville, and having passed the examination as one of the first three on the eligibility list and having been certified and having been appointed from a certified list and having been sworn in by former Mayor William J. Shoub, and now is a patrolman of the city of Wellsville, he is entitled to the position under the Civil Service Laws of the State of Ohio.

"Accordingly, you are instructed to enter Charles Amato on your records as patrolman in the City of Wellsville,

Eisenhower Asks Ohioans To Vote GOP

Former President Talks In Columbus Day After Birthday

COLUMBUS, Ohio (AP) — Former President Dwight D. Eisenhower, hitting the political hustings on the day after his 74th birthday, asked today "that Ohio vote Republican, all the way, in every contest on the ballot."

In notes prepared for a speech to a Republican rally at Veterans Memorial Auditorium, Eisenhower said "Republicans are pledged to sound and progressive government, searching out modern solutions for modern problems.."

And he said attacks on GOP defense, foreign and domestic policies were "tommy rot."

The former president commented that Ohio had supported Republican presidential candidates in 1952, 1956 and 1960 and that "it will do the nation great good to learn that Ohio has once again voted for a Republican president — for Barry Goldwater."

That was Eisenhower's only mention of the GOP presidential candidate in his prepared remarks.

Fog Snarls Sen. Young's Trip To City

Sen. Stephen Young finally made it to East Liverpool this morning but only after heavy fog forced his helicopter to land at Swaney Airport — too late to address an East Liverpool High School assembly.

The U. S. senator campaigning for re-election over Republican Robert Taft Jr., started late in Cleveland and when the two-place 'copter arrived over East Liverpool the pilot, Don Bailey, found the city blanketed in the dense mist.

The copter circled the city about 10 minutes then headed for the airport. Sen. Young was brought into the city by car, arriving at Westgate School about 10:30.

However, the senator arrived too late to address the students, who were sent back to classes when Sen. Young failed to arrive by 10 a. m.

"I've had a belly full of this," the 75-year-old Cleveland Democrat said in a phone call back to his Cleveland headquarters.

Young's tour called for stops later today in Steubenville, Bellaire, New Philadelphia, Uhrichsville, Newark and Cambridge. Friday, after a breakfast meeting in Zanesville, he was to join President Johnson in Cincinnati.

The senator proceeded to Steubenville by car and planned to go on to Bellaire, then head for Cambridge. He did not take time to visit the city Democratic headquarters because of his late arrival.

AMC Faces Strike If Profit-Sharing Plan Isn't Okayed

Vital Point Holding Key To Walkout

UAW Votes 2 To 1 To Walk Off Job If Not Approved

DETROIT (AP)—The auto industry's only profit-sharing plan was put to a life-or-death test as the United Auto Workers headed today for a midnight strike deadline at American Motors Corp.

Keeping profit sharing was "the single most important question" as AMC and UAW bargainers met, said Douglas Fraser, head of the union's American Motors department.

The 52-member UAW negotiating committee voted Wednesday night to negotiate continuance of the unique plan won by the UAW in 1961 or call 25,000 AMC production workers off the job. The vote was "over two to one," Fraser said.

On virtually all other major issues, the UAW and AMC were reported in agreement.

AMC Vice President Edward L. Cushman declared he was "shocked and amazed that the union would strike to continue progress-sharing on their terms."

The union wants profit sharing, American Motors said, on top of an economic package equal to those the UAW won previously at General Motors Corp., Ford Motor Co. and Chrysler Corp.

AMC has offered to equal the package estimated worth 54 cents an hour per worker over the three-year period of the contract at the Big Three. It includes early retirement incentives, longer vacations, expanded health and insurance provisions and wage increases.

AMC said the UAW was not willing to gamble in return for continuance of profit sharing — possible wage gains it might otherwise get if there were no profits or if the workers' share of profits wasn't enough to pay for bigger pensions, increasing insurance benefits and earlier retirement.

Guard Against Teens' Drinking Set By Court

New safeguards designed to prevent sale of alcoholic beverages to minors were explained to 21 East Liverpool tavern owners and managers Wednesday afternoon at Lisbon in a conference with Juvenile Judge Louis Tobin.

The court recommended adoption of a form that tavern employes will request prospective customers to complete if they suspect the person is under the legal age. It will include data on the patron's name, age and birthdate, along with accompanying proof. If any trouble arises later, the tavern owner will not be held responsible if he has required the customer to fill out the form, but the juvenile will be prosecuted, the judge said.

Also attending the meeting, another in a series, were Mayor Merrill D. Hall, Safety-Service Director Robert E. Vodrey and Police Chief A. J. Radeschi.

39 Injured In Florida

Hurricane Spins Out Into Atlantic

BULLETIN

MIAMI, Fla. (AP) — Hurricane Isbell, crossing up the Weather Bureau, swung today into a broad turn that aimed her 100-mile winds at the north Carolina coast.

MIAMI, Fla. (AP) — Hurricane Isbell whirled out into the Atlantic today after spinning off tornadoes that injured at least 39 persons in a quick trek across southern Florida.

At least six and possibly more tornadoes whipped out of the leading edge of the small but vicious storm, demolishing house trailers, unroofing homes and other buildings in several communities.

The hurricane went out to sea after passing just north of Palm Beach, famed winter playground of the wealthy, leaving the city largely without electricity and its streets littered with debris.

But Isbell brought nothing to Florida to compare with the devastation she left behind in Cuba, where four died, hundreds of homes were destroyed, thousands evacuated from flooded lowlands and crops ruined.

The worst of the tornadoes whirled out of the Atlantic and ripped through Boynton Beach, a coastal city of 14,000, destroying about 20 house trailers and injuring at least 22 persons.

"It sounded like a freight train," said Mrs. L. S. Chadwell who with her husband and two sons-in-law watched in terror as the twister tugged the roof off their 54-year-old home.

"Everything turned dark and it hit us," Mrs. Chadwell said. "I screamed for them to fall on the floor when the roof started coming off."

They were not injured.

Seventeen persons were hurt at Eau Gallie when a tornado demolished a dozen house trailers, lifted the roof off a church during services and blew a house across a road.

The twister ripped through the town of about 19,000 while the center of the hurricane was about 80 miles down the coast near Palm Beach.

2 Arrests On Morals Charges

Top Assistant To Johnson For 20 Years Quits Post

WASHINGTON (AP) — Walter W. Jenkins, a top assistant to President Johnson for 20 years, was arrested at the Washington YMCA on morals charges in 1959 and again last week, police records show. The White House has announced his resignation.

A soft-spoken Texan who was an Army major in World War II, Jenkins, 46, and the father of six, has been associated with the President since Johnson was a congressman. His resignation was announced in New York where the President was campaigning Wednesday night.

Records of the police morals division showed that Jenkins was arrested five years ago on a charge of "disorderly conduct (pervert) and on Oct. 7 this year on a charge of "disorderly (indecent gestures)." He forfeited collateral in both cases.

The Jenkins development may carry political implications as the presidential campaign heads into its stretch run.

Aides traveling with Sen. Barry Goldwater, the Republican candidate for president, declined to comment immediately. But in Washington, Clifton White, chairman of the Citizens Committee for Goldwater-Miller, said in a statement "the effects upon America both nationally and internationally can only be surmised at this time."

And, before the Jenkins resignation was announced, Dean Burch, Republican national chairman, issued a statement that charged "the White House is desperately trying to suppress a major news story affecting the national security."

Later, in New York, a White House aide was asked if Jenkins had sat in on meetings of the sensitive National Security Council. "I'd have to rely on memory in a case like this," he said. "I'd not want to rely on memory."

2 Will Share Nobel Award In Medicine

American, German Selected For 1964 Prize Of $53,123

STOCKHOLM, Sweden (AP) The 1964 Nobel Prize for Medicine was awarded jointly today to American Konrad Bloch and German Feodor Lynen.

The two were awarded the $53,123 prize for their discoveries concerning the mechanism and regulation of cholesterol and fatty acid metabolism.

Bloch is German-born, and became a naturalized American in 1944.

Bloch, 52, was born at Neisse, Germany, and studied at the Munich Technical University. He married in 1941 and has two children. The family lives at Cambridge, Mass., where Bloch is associated with Harvard.

Feodor Lynen, 53, was born in Munich and is professor and director of the Biochemical Institution of the Max Planck Institute for Cell Chemistry. He married in 1937 and has five children.

In its citation, the awarding College of Professors of the Royal Caroline Institute noted that cholesterol during recent years has become a word of common usage in relation to the connection of arteriosclerosis to dietary and blood cholesterol.

Circulatory diseases are the foremost cause of death in many areas of the world. The great majority of these cases have a gravely disturbed metabolism. The prerequisite for correcting faulty function is to know the intimate details of the mechanisms involved.

The therapy against these circulatory diseases and related disturbances in steroid hormone metabolism will, in the future, rest upon the firm foundation laid by today's Nobel prizewinners, the awarding body said.

Bloch was credited with brilliant investigations which have shown how cholesterol is built up from acetic acid.

Cholesterol, a fatty substance occurring in some foods and also developed by the body itself, long has been suspected as a cause of arteriosclerosis—artery hardening or narrowing—and of coronary heart attacks, especially if present in the system in large quantity.

'Rising Tide Of Doubt And Dismay'

Goldwater Says Johnson Shadowed By Suspicions

HARLINGEN, Tex. (AP) — Sen. Barry Goldwater said today there is "a rising tide of doubt and dismay. . . all across the land" concerning the presidency and charged President Johnson is "shadowed by suspicions which no amount of handshaking and hurrah can chase away."

The Republican presidential nominee said Johnson's "great and good friend, Bobby Baker, has been exposed as a manipulator of high office," and the President's "name and office is linked with that of a convicted criminal, Billie Sol Estes."

Goldwater swung into south Texas for a day of campaigning after two days before large, enthusiastic crowds as he moved back and forth across the Midwest farm belt and on to the edge of the Rocky Mountains for a rally Wednesday night in Denver.

He said Americans "seek many different things from a president in a political sense — but morality is another thing. Americans expect every president, regardless of his promises and his programs, to at least talk straight and act straight."

Cable Franchise Rejected By Hall

Mayor Merrill D. Hall today vetoed an ordinance enacted by Council Oct. 5 that granted a New Jersey concern a 15-year franchise to operate a community television cable service in East Liverpool.

Citing franchise payments offered subsequently by another concern that would bring the city "several thousand dollars" in revenue over the 15-year span, the mayor disapproved the legislation that granted the exclusive operating right to Rego Industries, Inc., of Hoboken.

—:—

THE VETOED ordinance will be returned to Council at its meeting Monday night, along with an explanatory message from the mayor.

Council evidently will be able to muster the five votes required to override the veto. All six Democratic members of Council voted for the legislation when it was approved under suspension of the rules nearly two weeks ago. The lone Republican, Councilman Robert W. Sample, was absent.

The mayor summarized his reasoning in announcing the veto today. He said the full text of his veto message will not be made public until it is received officially by Council.

—:—

HE SAID since the franchise was granted Oct. 5 he has received a proposal from another firm, an Ohio corporation, seeking a franchise at a lower charge to its customers and offering a franchise fee to the city "amounting to several thousand dollars."

He did not name the concern, but said it will file a proposition with Council.

The mayor said he feels the question deserves more study by Council.

The mayor also cited a variation in the company's monthly charges to customers as explained to Council in its meeting Sept. 8, and the rates stipulated in the ordinance.

He said the company originally quoted a monthly charge of $4.50 to $4.95, but the legislation enacted by Council calls for a rate of $5.50, subject to a 10 per cent discount for prompt payment. That makes the net rate $4.95.

—:—

THE MAYOR also said he believes the franchise ordinance should contain a clause requiring the firm to remove all its wires, lines and other gear from the city if it discontinues business. There's no such provision in the legislation, he said.

The decision to grant the franchise to Rego was made at Council's meeting Sept. 8 on recommendation of the planning committee, headed by Councilman William Davis. He said Rego appeared to offer the best proposition among firms that filed offers.

In Wellsville Police Case

Ohio Civil Service Group Rules In Favor Of Amato

The Wellsville Civil Service Commission has received an apparently unsought opinion from the Ohio Civil Service Commission at Columbus in regards to the Charles Amato police case.

The letter, directed to the commission and signed by Lowell Fess, secretary of the State Personnel Board of Review, states that Amato is to be entered on the records as a patrolman and be given the protection of Civil Service laws. The Wellsville commission did not seek the opinion.

Copies were sent to Donald Lowe, commission clerk, Amato, Mayor William Daugherty and Safety-Service Director Fred Baldasare.

Amato has filed suit in Common Pleas Court at Lisbon seeking to have himself declared as a legal, full - time patrolman on the police force.

The hearing is expected to be held sometime in near future. The latest action is another in a series of suits, counter-suits and court actions in the hassle.

A copy of the letter has been turned over to Solicitor William Bush. He said today that his immediate advice to the commission would be to take no action on the letter at this time.

Bush indicated there were many questionable points in the letter.

The letter follows:

"Upon the factual situation presented to us that Charles Amato was appointed to the police force on or about Nov. 13, 1958, as an extra patrolman and served as such; that in June of 1963 a vacancy arose on the police force of the city of Wellsville and from that time foreward, Charles Amato continued to serve as a patrolman in the city of Wellsville; that Charles Amato having taken and passed an open competitive examination given by the Civil Service Commission of the city of Wellsville, and having passed the examination as one of the first three on the eligibility list and having been certified and having been appointed from a certified list and having been sworn in by former Mayor William J. Fog Snarls Sen. Young's Trip To City

Sen. Stephen Young finally made it to East Liverpool this morning but only after heavy fog forced his helicopter to land at Swaney Airport — too late to address an East Liverpool High School assembly.

However, the senator arrived too late to address the students, who were sent back to classes when Sen. Young failed to arrive by 10 a. m.

"I've had a belly full of this," the 75-year-old Cleveland Democrat said in a phone call back to his Cleveland headquarters.

Young's tour called for stops later today in Steubenville, Bellaire, New Philadelphia, Uhrichsville, Newark and Cambridge. Friday, after a breakfast meeting in Zanesville, he was to join President Johnson in Cincinnati.

The senator proceeded to Steubenville by car and planned to go on to Bellaire, then head for Cambridge. He did not take time to visit the city Democratic headquarters because of his late arrival.

AMC Faces Strike If Profit-Sharing Plan Isn't Okayed

Vital Point Holding Key To Walkout

UAW Votes 2 To 1 To Walk Off Job If Not Approved

DETROIT (AP)—The auto industry's only profit-sharing plan was put to a life-or-death test as the United Auto Workers headed today for a midnight strike deadline at American Motors Corp.

Keeping profit sharing was "the single most important question" as AMC and UAW bargainers met, said Douglas Fraser, head of the union's American Motors department.

The 52-member UAW negotiating committee voted Wednesday night to negotiate continuance of the unique plan won by the UAW in 1961 or call 25,000 AMC production workers off the job. The vote was "over two to one," Fraser said.

On virtually all other major issues, the UAW and AMC were reported in agreement.

AMC Vice President Edward L. Cushman declared he was "shocked and amazed that the union would strike to continue progress-sharing on their terms."

The union wants profit sharing, American Motors said, on top of an economic package equal to those the UAW won previously at General Motors Corp., Ford Motor Co. and Chrysler Corp.

AMC has offered to equal the package estimated worth 54 cents an hour per worker over the three-year period of the contract at the Big Three. It includes early retirement incentives, longer vacations, expanded health and insurance provisions and wage increases.

AMC said the UAW was not willing to gamble in return for continuance of profit sharing — possible wage gains it might otherwise get if there were no profits or if the workers' share of profits wasn't enough to pay for bigger pensions, increasing insurance benefits and earlier retirement.

Guard Against Teens' Drinking Set By Court

New safeguards designed to prevent sale of alcoholic beverages to minors were explained to 21 East Liverpool tavern owners and managers Wednesday afternoon at Lisbon in a conference with Juvenile Judge Louis Tobin.

The court recommended adoption of a form that tavern employes will request prospective customers to complete if they suspect the person is under the legal age. It will include data on the patron's name, age and birthdate, along with accompanying proof. If any trouble arises later, the tavern owner will not be held responsible if he has required the customer to fill out the form, but the juvenile will be prosecuted, the judge said.

Also attending the meeting, another in a series, were Mayor Merrill D. Hall, Safety-Service Director Robert E. Vodrey and Police Chief A. J. Radeschi.

39 Injured In Florida

Hurricane Spins Out Into Atlantic

BULLETIN

MIAMI, Fla. (AP) — Hurricane Isbell, crossing up the Weather Bureau, swung today into a broad turn that aimed her 100-mile winds at the north Carolina coast.

MIAMI, Fla. (AP) — Hurricane Isbell whirled out into the Atlantic today after spinning off tornadoes that injured at least 39 persons in a quick trek across southern Florida.

At least six and possibly more tornadoes whipped out of the leading edge of the small but vicious storm, demolishing house trailers, unroofing homes and other buildings in several communities.

The hurricane went out to sea after passing just north of Palm Beach, famed winter playground of the wealthy, leaving the city largely without electricity and its streets littered with debris.

But Isbell brought nothing to Florida to compare with the devastation she left behind in Cuba, where four died, hundreds of homes were destroyed, thousands evacuated from flooded lowlands and crops ruined.

The worst of the tornadoes whirled out of the Atlantic and ripped through Boynton Beach, a coastal city of 14,000, destroying about 20 house trailers and injuring at least 22 persons.

"It sounded like a freight train," said Mrs. L. S. Chadwell who with her husband and two sons-in-law watched in terror as the twister tugged the roof off their 54-year-old home.

"Everything turned dark and it hit us," Mrs. Chadwell said. "I screamed for them to fall on the floor when the roof started coming off."

They were not injured.

Seventeen persons were hurt at Eau Gallie when a tornado demolished a dozen house trailers, lifted the roof off a church during services and blew a house across a road.

The twister ripped through the town of about 19,000 while the center of the hurricane was about 80 miles down the coast near Palm Beach.

2 Arrests On Morals Charges

Top Assistant To Johnson For 20 Years Quits Post

WASHINGTON (AP) — Walter W. Jenkins, a top assistant to President Johnson for 20 years, was arrested at the Washington YMCA on morals charges in 1959 and again last week, police records show. The White House has announced his resignation.

A soft-spoken Texan who was an Army major in World War II, Jenkins, 46, and the father of six, has been associated with the President since Johnson was a congressman. His resignation was announced in New York where the President was campaigning Wednesday night.

Records of the police morals division showed that Jenkins was arrested five years ago on a charge of "disorderly conduct (pervert) and on Oct. 7 this year on a charge of "disorderly (indecent gestures)." He forfeited collateral in both cases.

The Jenkins development may carry political implications as the presidential campaign heads into its stretch run.

Aides traveling with Sen. Barry Goldwater, the Republican candidate for president, declined to comment immediately. But in Washington, Clifton White, chairman of the Citizens Committee for Goldwater-Miller, said in a statement "the effects upon America both nationally and internationally can only be surmised at this time."

And, before the Jenkins resignation was announced, Dean Burch, Republican national chairman, issued a statement that charged "the White House is desperately trying to suppress a major news story affecting the national security."

Later, in New York, a White House aide was asked if Jenkins had sat in on meetings of the sensitive National Security Council. "I'd have to rely on memory in a case like this," he said. "I'd not want to rely on memory."

2 Will Share Nobel Award In Medicine

American, German Selected For 1964 Prize Of $53,123

STOCKHOLM, Sweden (AP) The 1964 Nobel Prize for Medicine was awarded jointly today to American Konrad Bloch and German Feodor Lynen.

The two were awarded the $53,123 prize for their discoveries concerning the mechanism and regulation of cholesterol and fatty acid metabolism.

Bloch is German-born, and became a naturalized American in 1944.

Bloch, 52, was born at Neisse, Germany, and studied at the Munich Technical University. He married in 1941 and has two children. The family lives at Cambridge, Mass., where Bloch is associated with Harvard.

Feodor Lynen, 53, was born in Munich and is professor and director of the Biochemical Institution of the Max Planck Institute for Cell Chemistry. He married in 1937 and has five children.

In its citation, the awarding College of Professors of the Royal Caroline Institute noted that cholesterol during recent years has become a word of common usage in relation to the connection of arteriosclerosis to dietary and blood cholesterol.

Circulatory diseases are the foremost cause of death in many areas of the world. The great majority of these cases have a gravely disturbed metabolism. The prerequisite for correcting faulty function is to know the intimate details of the mechanisms involved.

The therapy against these circulatory diseases and related disturbances in steroid hormone metabolism will, in the future, rest upon the firm foundation laid by today's Nobel prizewinners, the awarding body said.

Bloch was credited with brilliant investigations which have shown how cholesterol is built up from acetic acid.

Cholesterol, a fatty substance occurring in some foods and also developed by the body itself, long has been suspected as a cause of arteriosclerosis—artery hardening or narrowing—and of coronary heart attacks, especially if present in the system in large quantity.

At Session In Lisbon

10 Selected As Directors For Mental Health Group

LISBON — Ten were elected to the Board of Directors of the Columbiana County Mental Health Association at the annual meeting Wednesday night at the Wick Hotel.

Chosen after a report from Miss Alice Herriott of East Palestine, chairman of the nominating committee, they are:

Miss Nell Robinson, Dr. Edith Gimore, Dr. John W. Hays and the Rev. D. Ross Salisbury Jr., all of East Liverpool; Fred Johnson of Summitville; Miss Lillian Schroeder and Mrs. Harold Martsolf, both of Salem; Oliver Payne of Lisbon, and Atty. J. Warren Bettis and Freeman Strabley, both of Salineville. Terms are for three years.

Fifty attended the session, at which the Rev. George Sweeney of Columbiana, president, presided.

The speaker was Mrs. Ruth Lee Wright, psychiatric social worker at the Trumbull County Guidance Center in Warren. Mrs. Wright discussed her work and said more psychiatric workers are needed to take part of the growing demand for mental health care.

Dr. Jekabs Knezinskis, psychiatrist - director of the County Clinic, said 200 referrals and patients have been received since the clinic was placed in operation.

William J. Haifley of Lisbon, treasurer, gave a financial report for the year.

Juvenile Judge Louis Tobin spoke on the one-tenth mill levy that will appear on the general election ballot Nov. 3 to provide funds for operation of the clinic.

He pointed out the clinic formerly operated with proceeds of various fund drives, along with state and federal aid. He said the clinic needs about $20,000 for its operations in 1965.

The levy is expected to produce about $18,000 to $20,000 a year, as it amounts to 10 cents on each $1,000 of property value or 50 cents a year for a property valued at $5,000, the judge said.

Mrs. Paul Humm of Lisbon was in charge of the program and Mrs. L. J. Mellinger of Leetonia made dinner arrangements. Fr. William Hohman of St. George's Catholic Church gave the invocation.

School Sale Agreed Upon At Salineville

SALINEVILLE — Willard Hillyer, operator of a large market at Lisbon, today advised the Southern Local Board of Education office he will purchase the abandoned Central School and grounds along Main St. for a new market here.

Hillyer had conferred previously with the board concerning the one - acre site on which the 70-year - old structure stands, asking that the building be razed before he would buy the property for $5,000.

The board had indicated it would be too expensive for it to have the building demolished, and maintained its sale price of $5,000 which Hillyer today accepted.

The store owner and operator said he would have the two-story brick building razed as soon as possible to clear the way for construction a new, one-story modern market with about 6,500 square feet of floor space.

Hillyer said he hopes to have the store in operation by next spring.

The board is slated to meet Monday night when Hillyer's purchase proposal may be considered.

Man In Crash Given Penalty

Richard Allen McDevitt, 31, of 612 Garner Ave., cited on a reckless driving charge after a collision Sunday afternoon on the East Liverpool - Wellsville "super-road," was fined $25 and costs today by Municipal Judge Samuel M. Chertoff.

McDevitt was cited by the State Highway Patrol, which alleged he attempted to pass another car moving in the same direction, then noted another car already in the passing lane. In returning to the right lane, McDevitt collided with the rear corner of the auto ahead, the patrol alleged. McDevitt pleaded "no contest."

In another patrol case, the judge continued until Monday at 9 a. m. The hearing of John G. Fritzley, 21, of Anderson Blvd., accused of failure to yield the right-of-way as a result of a mishap early Sunday on Anderson Blvd. at Park Way. Fritzley pleaded "no contest" at arraignment this morning, but his case was continued to arrange the appearance of the arresting officer.

The court imposed a fine of $15 and costs on Charles T. Landy, 23, of Valley Ave., cited Sept. 19 on a reckless driving charge. Police alleged he lost control of his auto and hit a parked car at Oakland and Pennsylvania Aves. The case had been continued to allow Landy to pay for damage to the other car. Landy advised the court the damage has been taken care of.

The judge said he imposed a comparatively small fine because Landy's operator's permit had been held by the court since he was arraigned originally.

Jack Sayre, 21, of 514 Broadway, Wellsville, was fined $10 and costs on a charge of speeding 60 miles an hour in a 50-mile zone on Route 7. He was cited Monday by the patrol.

Ripple suffered pains of the neck and back. He was admitted to City Hospital but released later in the day.

At Session In Lisbon

10 Selected As Directors For Mental Health Group

LISBON — Ten were elected to the Board of Directors of the Columbiana County Mental Health Association at the annual meeting Wednesday night at the Wick Hotel.

Chosen after a report from Miss Alice Herriott of East Palestine, chairman of the nominating committee, they are:

Miss Nell Robinson, Dr. Edith Gimore, Dr. John W. Hays and the Rev. D. Ross Salisbury Jr., all of East Liverpool; Fred Johnson of Summitville; Miss Lillian Schroeder and Mrs. Harold Martsolf, both of Salem; Oliver Payne of Lisbon, and Atty. J. Warren Bettis and Freeman Strabley, both of Salineville. Terms are for three years.

Fifty attended the session, at which the Rev. George Sweeney of Columbiana, president, presided.

The speaker was Mrs. Ruth Lee Wright, psychiatric social worker at the Trumbull County Guidance Center in Warren. Mrs. Wright discussed her work and said more psychiatric workers are needed to take part of the growing demand for mental health care.

Dr. Jekabs Knezinskis, psychiatrist - director of the County Clinic, said 200 referrals and patients have been received since the clinic was placed in operation.

William J. Haifley of Lisbon, treasurer, gave a financial report for the year.

Juvenile Judge Louis Tobin spoke on the one-tenth mill levy that will appear on the general election ballot Nov. 3 to provide funds for operation of the clinic.

He pointed out the clinic formerly operated with proceeds of various fund drives, along with state and federal aid. He said the clinic needs about $20,000 for its operations in 1965.

The levy is expected to produce about $18,000 to $20,000 a year, as it amounts to 10 cents on each $1,000 of property value or 50 cents a year for a property valued at $5,000, the judge said.

Mrs. Paul Humm of Lisbon was in charge of the program and Mrs. L. J. Mellinger of Leetonia made dinner arrangements. Fr. William Hohman of St. George's Catholic Church gave the invocation.

School Sale Agreed Upon At Salineville

SALINEVILLE — Willard Hillyer, operator of a large market at Lisbon, today advised the Southern Local Board of Education office he will purchase the abandoned Central School and grounds along Main St. for a new market here.

Hillyer had conferred previously with the board concerning the one - acre site on which the 70-year - old structure stands, asking that the building be razed before he would buy the property for $5,000.

The board had indicated it would be too expensive for it to have the building demolished, and maintained its sale price of $5,000 which Hillyer today accepted.

The store owner and operator said he would have the two-story brick building razed as soon as possible to clear the way for construction a new, one-story modern market with about 6,500 square feet of floor space.

Hillyer said he hopes to have the store in operation by next spring.

The board is slated to meet Monday night when Hillyer's purchase proposal may be considered.

Man In Crash Given Penalty

Richard Allen McDevitt, 31, of 612 Garner Ave., cited on a reckless driving charge after a collision Sunday afternoon on the East Liverpool - Wellsville "super-road," was fined $25 and costs today by Municipal Judge Samuel M. Chertoff.

McDevitt was cited by the State Highway Patrol, which alleged he attempted to pass another car moving in the same direction, then noted another car already in the passing lane. In returning to the right lane, McDevitt collided with the rear corner of the auto ahead, the patrol alleged. McDevitt pleaded "no contest."

In another patrol case, the judge continued until Monday at 9 a. m. The hearing of John G. Fritzley, 21, of Anderson Blvd., accused of failure to yield the right-of-way as a result of a mishap early Sunday on Anderson Blvd. at Park Way. Fritzley pleaded "no contest" at arraignment this morning, but his case was continued to arrange the appearance of the arresting officer.

The court imposed a fine of $15 and costs on Charles T. Landy, 23, of Valley Ave., cited Sept. 19 on a reckless driving charge. Police alleged he lost control of his auto and hit a parked car at Oakland and Pennsylvania Aves. The case had been continued to allow Landy to pay for damage to the other car. Landy advised the court the damage has been taken care of.

The judge said he imposed a comparatively small fine because Landy's operator's permit had been held by the court since he was arraigned originally.

Jack Sayre, 21, of 514 Broadway, Wellsville, was fined $10 and costs on a charge of speeding 60 miles an hour in a 50-mile zone on Route 7. He was cited Monday by the patrol.

Ripple had halted for the traffic light on Route 7, police said. Heavy damage resulted. Wymer was fined $10 and costs for reckless operation at a hearing this morning before Mayor William Daugherty of Wellsville.

Ripple suffered pains of the neck and back. He was admitted to City Hospital but released later in the day.

Jones And France For Appeals Court

Voters in the Seventh District Court of Appeals will select two Appeals Court judges in November.

George M. Jones of Youngstown, the incumbent, is opposed by John J. Lynch, also of Youngstown, for the full term beginning Feb. 9, 1965, for six years.

James France of Kent, the incumbent, is opposed by Nils Johnson of Canfield for the unexpired term ending Feb. 8, 1967.

Ohio has 10 District Courts of Appeal and three judges sit in each court. The Seventh District Court serves 13 counties — Columbiana, Jefferson, Carroll, Harrison, Belmont, Noble, Monroe, Portage, Ashtabula, Geauga, Mahoning, Trumbull and Lake. This court hears appeals from Columbiana County's Common Pleas Court. Altogether, it hears appeals from 25 Common Pleas Courts.

THE SEVENTH District Court is an extremely busy one, as are most Appeals Courts. The case load in this court has doubled in the last five years and it is important that Appeals Court judges be able to handle difficult cases as quickly as possible and to reach decisions based on law. This requires vigor, experience and knowledge.

This newspaper firmly believes in continuity of judicial tenure when incumbents, by the record of their performance on the bench, demonstrate a capacity to discharge their responsibilities intelligently and energetically.

This we feel Judge Jones and Judge France have done, as the record of confirmed decisions and reduced case loads indicate. In fact, the average elapsed time for appealed cases has been reduced from nine to six months.

Judge Jones was appointed by Gov. James Rhodes a year ago to succeed the late Judge John Donahue. He brought to the court the experience of 12 years with the firm of Shirreffs, Jones and Moore, where he earned a reputation as a trial lawyer. He is a native of Youngstown and received his law degree from Ohio State University. He is a U.S. Air Force veteran. He and Mrs. Jones have three children.

JUDGE FRANCE received early training as a law clerk with White & Case of New York, practiced general law in Kent for eight years and served as municipal judge of Ravenna one term and common pleas judge of Portage County for one year. He has served the Seventh District Appeals Court since 1962.

Judge France attended Brown University, where he received honors in economics and history. He also attended Yale University Law School, where he received his LLB in 1941. He, too, is a veteran of the U.S. Air Force and his list of professional activities is long. They include the presidency of the Ohio Municipal Judges Association and the presidency of the Portage County Bar Association. He is a member of the Ohio State Bar Association, being chairman of two important committees and a member of several others. He is a co-author of a book, "Ohio Municipal and County Court Practice," and an instructor at the University of Akron College of Law. Judge and Mrs. France have two children.

This newspaper recommends George M. Jones for re-election to the Seventh District Appeals Court for the full term and James France for the unexpired term.

Presidential Albatross

One of the oddities of the Senate Rules Committee's decision to drop the political hot potato of the Bobby Baker investigation until the election is over is the presence on this small nine-member committee of Carl Hayden of Arizona, Sen. Goldwater's senior associate and president pro tem of the Senate. Sen. Hayden is next to the chairman, B. Everett Jordan of North Carolina among the committee's Democrats.

Sen. Jorden did not specify what senators held the view that the Baker probe should be put off until the election was over. Other committee Democrats are Howard W. Cannon of Nevada, Claiborne Pell of Rhode Island, Joseph S. Clark of Pennsylvania and Robert C. Byrd of West Virginia.

REPUBLICAN members are Carl T. Curtis of Nebraska, John Sherman Cooper of Kentucky and Hugh Scott of Pennsylvania. The terms of Sens. Scott, Byrd and Cannon expire next January.

Nothing could have put a darker shadow over the Bobby Baker episode than the skittishness of the Senate committee charged with responsibility for finding out everything that needed to be known about the former secretary of the Democratic majority.

The committee had no trouble making up its collective mind that the Baker episode justified an overhaul of Senate ethics, then proceeded to propose such sweeping reforms that senators of both parties backed away.

BUT WITH minor exceptions, the lid was never lifted on the specifics of the irregularities that enabled the popular young Mr. Baker to achieve great wealth on a moderate income. Thus the shadow. Thus the most damaging suspicion raised in a presidential campaign that finds President Johnson talking about everything but the one thing everybody wants to know about — his thoughts about this man who once was his protege and now has become his political albatross.

Keep It Moving

Nearly $30,000 has been collected to date in the area United Fund campaign.

Some $80,000 more must be contributed if the goal is to be reached and funds made available for the continued proper operation of the 12 participating agencies.

Reports indicate contributions in most cases are running ahead of comparable donations made last year. Do your part to keep things moving in this direction.

If there's any doubt in your mind as to the benefits to be derived from the money you pledge, pause for a moment and reflect on what a misfortune it would be if the 12 agencies involved were forced to close their doors and were no longer available to provide their many worthwhile services.

Good Scouts

Congratulations to the latest Boy Scout leaders to receive recognition for their work.

Five men active for some time in the movement were honored when the Shawnee District of the Columbiana Council held its annual dinner meeting Tuesday.

A Scout program can be only as strong and vigorous as those who are responsible for its various activities. Fortunately, those in key positions with the Columbiana Council are doing their jobs well.

Domestic Godivas?

By Truman Twill

This nation is indebted, I guess, to tell-all columnist Ann Landers for unveiling a report on the prevalence of nudity among housewives.

The information was revealed after a letter to Miss Landers from a domestic Godiva who made a clean, er, midriff of the fact she liked to clean house in the nude.

Then, surprise! Other Godivas said they had been doing the same thing but keeping quiet about it. "A staggering number of housewives wrote to confide that they, too, enjoy cleaning house in the altogether," Miss Landers reported with a straight typewriter.

They're kidding.

Don't you believe them, Ann Landers.

AT ONE POINT in my scramble for education beyond the taxpayers' level, I was a summer iceman.

I popped into and out of hundreds of houses without knocking, as was the practice in ice-peddling days. I never saw a nude housewife.

I have known and talked with meter readers, coal men, door-to-door salesmen, encyclopedia peddlers, solicitors, canvassers, poll-takers and repairmen. They are full of stories about wild things that go on in the sanctity of the text. But never have I ever heard one speak of haus fraus gallivanting through chores in the nude. It doesn't happen.

They're putting you on, Ann Landers. I offer my services to check this out personally in a nudity survey; I am that sure of it.

No female in her right mind would do housework without clothes on because one go at it without protection would clinch the point that clothing is indispensable when working around machinery, stoves, cleaning compounds, sharp objects, sudden drafts and callers at the door.

The nudists who tumbled over one another to reveal their "secret" belong to that group of thwarted showoffs who can convince themselves that things they never would actually do are as commonplace as grease splatters on a kitchen stove.

And speaking of grease splatters—yowp!

THAT'S THE WHOLE situation summed up right there—yowp!

There are women who loll about in the nude because they're too lazy to put on clothes. Everybody knows there are women who spend half their lives in a state of morning frowsiness.

But as for peeling down to do housework, that's silly. I intend to check on this false report and shall let Ann Landers know if I run across confirmation of her correspondents' reports of female nudists running rampant through the kitchens and living rooms of America.

Word would have leaked out long before this if it were true. Everybody would have wanted to be a meter reader.

Hasn't Been Hit Too Hard Yet

Hidden Vote Holds Election Key

By Victor Riesel

While trekking across 12,000 miles of our land, this reporter observed that the presidential campaign is the least publicly discussed national election since the invention of the ballot.

Victor Riesel

It isn't lethary. It's a mysterious reluctance to open up. Whether they are folks in Brownsville, Texas—the southernmost point in the United States—or Bellingham, Wash.—the northermost point—or in Chicago or New York—the most congested points—none but the partisans really reveal how they'll vote or who they believe will carry their states.

Evidently, the independent bloc—the hidden vote—is bigger than is generally realized. It still can swing either way.

That's why labor's political strategists are running more scared than Lyndon Johnson. Their problem cuts deep because their task is far more than the election of the President.

This problem, in view of the massive campaign they've launched against Barry Goldwater, is to bring out a huge and obvious labor vote. Yet, they are harassed by reports of defections especially in the industrial areas.

NO ONE can predict now whether big blocs of the rank and file will go to the Republican nominee because of the still strong backlash or whether they will simply stay at home. If the labor leaders can't get out a record vote they will have lost prestige and power regardless of who wins on Nov. 3.

Thus, behind the scenes, the basic fight for the union chiefs is a duel between themselves and the Republicans' "Big City Program" directed by Sherman Unger, a Cincinnati lawyer.

To pick a key district at random I took a hard look at Chicago. There the GOP Big City activists have a network of 600 five-man teams. By Election Day the program will have another 600 units operating at the polls, working with another network of teams which in turn will have men and women in every precinct. This is the strongest Big City apparatus. It is linked with the drive in Gary, where there is a rank and file labor committee for Goldwater.

LED BY TWO members of the big steel mill locals there, it calls itself "Gary Steelworkers for Truth." It's pouring literature into the hands of thousands of members of Locals 1014 and 2697 of the United Steelworkers of America.

Still selecting cities at random I found labor men working for the Goldwater Citizens Committee in Seattle, Wash. The Washington State Labor News for a big Labor Day advertisement. The GOP gladly bought the space in the News, the oldest labor publication in the state. There was terrific reaction from the labor leadership. The paper was shut down a few weeks later.

During a recent AFL-CIO state convention in Davenport, Iowa, some delegates encountered a Republican gubernatorial nominee in the lobby. There was an argument. A few delegates rushed to the Republican's defense. They offered to defend him physically. They wore Goldwater-Miller buttons.

IN THE EAST, the city of Baltimore is typical of the GOP Big City operation. There last Thursday the Program director rented the big ballroom at the Lord Baltimore Hotel and invited volunteers including some union men in that center of steel mills and electronic factories.

More than 600 jammed the hall. They were organized into teams and given "vote quotas" across the entire city including election districts in which masses of union men live. In a few days they were out working the Big City Program street-by-street stategy which has enabled the Republican party to make over seven million individual contacts across the country.

This is the story in Pittsburgh, Kansas City, Newark, and similar unionized areas, as well as Atlanta, Ga. Program Director Unger has told his national leaders he will have men in every precinct in the big "14" cities where labor is strong as well as in communities where the labor membership is sparse.

HIS PEOPLE also note that some 10,000 workers turned out to hear Barry Goldwater at the Hughes Aircraft landing strip outside Los Angeles on Friday, Oct. 9. The senator's listeners were not unfriendly, though the vast throng was mostly union men.

Thus the fight goes on for the hidden vote. If the Big City Program cuts into the labor ranks by only a few ballots in each precinct it can swing a labor vote for the senator and thoroughly embarrass the union chiefs regardless of the final count in the state.

For many reasons this is a showdown election campaign for the labor leaders.

Letter To Editor

EDITOR OF THE REVIEW:

We wish to thank all the residents of the Lawrenceville area for attending the fire department's open house last Thursday.

We were trying to let the people know what the fire equipment is, how much it cost and what we have to work with. The department has come a long way since it was organized.

However, no one showed up.

The firemen waited, but no one came. We believe this shows what the community thinks of the department and how interested they are.

Anytime—day or night—when someone needs our help, we are only too glad to go to their assistance, serving our area without question, always ready.

We think the community should show a little more interest in our organization. Don't the people care what the equipment cost? Don't they care what the expenses are for upkeep? Don't they care what kind of equipment we have for fighting fires?

We feel the people should take a closer look at what we are trying to do for them, and show the department a little more respect.

Church And State

By David Lawrence

Religious Leaders Enter Political Arena

"Separation of church and state" has been a basic principle of American constitutionalism since the founding of the republic. But the 1964 presidential campaign has revealed some glaring exceptions to the rule.

David Lawrence

Thus, for instance, while prayer in the public schools is being banned on the theory that there must be no form of religion practiced in schools operated by the state, there seem to be no inhibitions felt by church and religious organizations themselves about participating directly in the current presidential campaign.

Some of the church groups, through their publications, have come out openly for one candidate or the other even though this could cost them their tax exemption. But the most conspicuous examples of disregard for the separation of church and state are to be noted in the activities of many church and religious organizations.

Politics is being discussed, moreover, very often inside the churches themselves nowadays and many a sermon contains expressions that point directly to candidates for political office.

JUST THIS WEEK, a statement was issued in St. Louis by Episocpal clergy men and laymen. It was given out for publication in St. Louis in an obvious attempt to get attention at the Episcopal General Convention in progress in that city. The press relations officer of the convention said that the statement had no connection "officially" with the Episcopal Church. It was released to the press at a news conference at an auditorium apart from that in which the delegates met.

The statement was originally mailed to 1,100 Episcopalians — and not to any other religious group — and the 726 signers included 10 Episcopalian bishops. It constituted an attack on Sen. Barry Goldwater, who is himself an Episcopalian. The statement said in part:

"We are profoundly disturbed by the transparent exploitation of racism among white citizens by Sen. Barry Goldwater and Congressman William Miller. . ..

"They have sought to frighten citizens by equating the Negro struggle for freedom with crime and violence in the streets while at the same time encouraging disrespect for law and order by their own expressed contempt for the federal judiciary, especially for the United States Supreme Court.

"They are ambitious to be elected by inheriting the votes of white racists, cultivating and harvesting the white backlash and by importuning the fears and disquiets of white citizens toward social change in both the North and the South."

AN INDIVIDUAL clergyman has a right, as a voter, to express such views on politics or on any other subject but to preach a sermon or sign a political statement calculated to have an effect on the current presidential campaign and to associate the statement with a particular church group raises a question of propriety if the principle of separation of church and state is to be maintained.

It will be recalled that, during the 1960 campaign, there was widespread criticism because of the injection of the religious issue. Catholics deplored statements which implied that Catholics as a religious group were supposed to be voting in a bloc for a coreligionist. Conversely, many Protestants, especially in the South, were accused of voting against the Kennedy candidacy because of his religion.

Universally, the religious issue was deplored, and the general feeling was that, while individual citizens could express themselves as they wished, it was not desirable for American citizens to vote or organize political groups on the basis of religious beliefs.

IT COMES as a surprise this year, therefore, to find an Episcopalian group and other religious units injecting themselves into the campaign. Thus, an article in the New York Times on Oct. 4 said:

"Indications of change in political sentiment have been the endorsement of Mr. Johnson by Protestant - church publications and groups, some of which are taking a position this year for the first time.

"Among these have been the bi - weekly, Christianity and Crisis, whose 18-man editorial board is headed by Dr. Reinhold Niebuhr, professor emeritus of Union Theological Seminary; The Churchman of the Episopalians and the United Church Herald of St. Louis.

"The committee on religion and race of the National Council of Churches has also endorsed the Democratic national ticket, as has the Christian Student Federation in Chicago."

A substantial number of Catholic as well as Jewish publications in different parts of the country also have abandoned their neutrality of the past and come out in favor of the Democratic ticket.

Again and again members of the congregations in various denominations have protested that they do not approve of what their pastors are saying in politically motivated sermons. But as yet the laymen apparently have no effective means of separating the church from the state.

Unique Campaign

By James Marlow

The 1964 presidential campaign, boring in many ways up till now, isn't altogether different from the 1960 race of Vice President Richard M. Nixon and Sen. John F. Kennedy.

But two things make it unique in recent American history:

1. Sen. Barry Goldwater's repeated charge that "scandal" hovers over the White House, although he offered no proof, and his preachments on the need for morality in government. Voters haven't heard that for a long time.

And then Wednesday night, it was learned that Walter W. Jenkins, an aide to President Johnson for many years, was twice arrested on a morals charge. He resigned.

2. This year's election will decide the direction of the government for years to come, since Johnson wants continuation of big government, with new programs as he thinks they're needed. Goldwater wants smaller government.

Because of this No. 2 problem the 1964 campaign, unlike that of 1960, is not strictly a personality contest. There is a real issue and a real difference from the Nixon- Kennedy contest.

There was no basic difference between them on domestic or foreign affairs or the kind of government needed. They didn't offer to change it but to improve it.

So the main question for the voters then was: Which of the two men could run the government better? In 1960 Nixon and Kennedy wrangled over their ideas on how to defend the offshore islands of Quemoy and Matsu from Red Chinese attack.

This was a pretty empty dispute, as time proved, because the problem of defending the islands has never arisen since 1960. It was an issue which hardly caught fire: the islands were too far off for voters to visualize the problem.

Something like that is happening now in the dispute between Johnson and Goldwater over whether the NATO commander — or the President alone — should have control over the use of "conventional" atomic weapons.

This is a complicated subject, shrouded in national security, and so far out of the experience of ordinary voters that most of them can't understand or visualize all that's involved.

As for the needling business, without which a campaign would be no campaign, Nixon and Kennedy needled each other and so do Johnson and Goldwater. Nixon and Kennedy were a little clumsy at it. So are Johnson and Goldwater.

Goldwater came up with an idea: He'd cut taxes 25 per cent at the rate of 5 per cent a year but he had to attach a couple of ifs to it: If Congress approved and if the budget was balanced each year.

No one can predict what shape the budget will be in five years in a row. This suggestion didn't raise sparks and Goldwater doesn't mention it much if at all anymore.

Johnson, on the other hand, has been trying to play it cool, making practically no promises he didn't make before the campaign began.

Jones And France For Appeals Court

Voters in the Seventh District Court of Appeals will select two Appeals Court judges in November.

George M. Jones of Youngstown, the incumbent, is opposed by John J. Lynch, also of Youngstown, for the full term beginning Feb. 9, 1965, for six years.

James France of Kent, the incumbent, is opposed by Nils Johnson of Canfield for the unexpired term ending Feb. 8, 1967.

Ohio has 10 District Courts of Appeal and three judges sit in each court. The Seventh District Court serves 13 counties — Columbiana, Jefferson, Carroll, Harrison, Belmont, Noble, Monroe, Portage, Ashtabula, Geauga, Mahoning, Trumbull and Lake. This court hears appeals from Columbiana County's Common Pleas Court. Altogether, it hears appeals from 25 Common Pleas Courts.

THE SEVENTH District Court is an extremely busy one, as are most Appeals Courts. The case load in this court has doubled in the last five years and it is important that Appeals Court judges be able to handle difficult cases as quickly as possible and to reach decisions based on law. This requires vigor, experience and knowledge.

This newspaper firmly believes in continuity of judicial tenure when incumbents, by the record of their performance on the bench, demonstrate a capacity to discharge their responsibilities intelligently and energetically.

This we feel Judge Jones and Judge France have done, as the record of confirmed decisions and reduced case loads indicate. In fact, the average elapsed time for appealed cases has been reduced from nine to six months.

Judge Jones was appointed by Gov. James Rhodes a year ago to succeed the late Judge John Donahue. He brought to the court the experience of 12 years with the firm of Shirreffs, Jones and Moore, where he earned a reputation as a trial lawyer. He is a native of Youngstown and received his law degree from Ohio State University. He is a U.S. Air Force veteran. He and Mrs. Jones have three children.

JUDGE FRANCE received early training as a law clerk with White & Case of New York, practiced general law in Kent for eight years and served as municipal judge of Ravenna one term and common pleas judge of Portage County for one year. He has served the Seventh District Appeals Court since 1962.

Judge France attended Brown University, where he received honors in economics and history. He also attended Yale University Law School, where he received his LLB in 1941. He, too, is a veteran of the U.S. Air Force and his list of professional activities is long. They include the presidency of the Ohio Municipal Judges Association and the presidency of the Portage County Bar Association. He is a member of the Ohio State Bar Association, being chairman of two important committees and a member of several others. He is a co-author of a book, "Ohio Municipal and County Court Practice," and an instructor at the University of Akron College of Law. Judge and Mrs. France have two children.

This newspaper recommends George M. Jones for re-election to the Seventh District Appeals Court for the full term and James France for the unexpired term.

Presidential Albatross

One of the oddities of the Senate Rules Committee's decision to drop the political hot potato of the Bobby Baker investigation until the election is over is the presence on this small nine-member committee of Carl Hayden of Arizona, Sen. Goldwater's senior associate and president pro tem of the Senate. Sen. Hayden is next to the chairman, B. Everett Jordan of North Carolina among the committee's Democrats.

Sen. Jorden did not specify what senators held the view that the Baker probe should be put off until the election was over. Other committee Democrats are Howard W. Cannon of Nevada, Claiborne Pell of Rhode Island, Joseph S. Clark of Pennsylvania and Robert C. Byrd of West Virginia.

REPUBLICAN members are Carl T. Curtis of Nebraska, John Sherman Cooper of Kentucky and Hugh Scott of Pennsylvania. The terms of Sens. Scott, Byrd and Cannon expire next January.

Nothing could have put a darker shadow over the Bobby Baker episode than the skittishness of the Senate committee charged with responsibility for finding out everything that needed to be known about the former secretary of the Democratic majority.

The committee had no trouble making up its collective mind that the Baker episode justified an overhaul of Senate ethics, then proceeded to propose such sweeping reforms that senators of both parties backed away.

BUT WITH minor exceptions, the lid was never lifted on the specifics of the irregularities that enabled the popular young Mr. Baker to achieve great wealth on a moderate income. Thus the shadow. Thus the most damaging suspicion raised in a presidential campaign that finds President Johnson talking about everything but the one thing everybody wants to know about — his thoughts about this man who once was his protege and now has become his political albatross.

Keep It Moving

Nearly $30,000 has been collected to date in the area United Fund campaign.

Some $80,000 more must be contributed if the goal is to be reached and funds made available for the continued proper operation of the 12 participating agencies.

Reports indicate contributions in most cases are running ahead of comparable donations made last year. Do your part to keep things moving in this direction.

If there's any doubt in your mind as to the benefits to be derived from the money you pledge, pause for a moment and reflect on what a misfortune it would be if the 12 agencies involved were forced to close their doors and were no longer available to provide their many worthwhile services.

Good Scouts

Congratulations to the latest Boy Scout leaders to receive recognition for their work.

Five men active for some time in the movement were honored when the Shawnee District of the Columbiana Council held its annual dinner meeting Tuesday.

A Scout program can be only as strong and vigorous as those who are responsible for its various activities. Fortunately, those in key positions with the Columbiana Council are doing their jobs well.

Domestic Godivas?

By Truman Twill

This nation is indebted, I guess, to tell-all columnist Ann Landers for unveiling a report on the prevalence of nudity among housewives.

The information was revealed after a letter to Miss Landers from a domestic Godiva who made a clean, er, midriff of the fact she liked to clean house in the nude.

Then, surprise! Other Godivas said they had been doing the same thing but keeping quiet about it. "A staggering number of housewives wrote to confide that they, too, enjoy cleaning house in the altogether," Miss Landers reported with a straight typewriter.

They're kidding.

Don't you believe them, Ann Landers.

AT ONE POINT in my scramble for education beyond the taxpayers' level, I was a summer iceman.

I popped into and out of hundreds of houses without knocking, as was the practice in ice-peddling days. I never saw a nude housewife.

I have known and talked with meter readers, coal men, door-to-door salesmen, encyclopedia peddlers, solicitors, canvassers, poll-takers and repairmen. They are full of stories about wild things that go on in the sanctity of the text. But never have I ever heard one speak of haus fraus gallivanting through chores in the nude. It doesn't happen.

They're putting you on, Ann Landers.

I offer my services to check this out personally in a nudity survey; I am that sure of it.

No female in her right mind would do housework without clothes on because one go at it without protection would clinch the point that clothing is indispensable when working around machinery, stoves, cleaning compounds, sharp objects, sudden drafts and callers at the door.

The nudists who tumbled over one another to reveal their "secret" belong to that group of thwarted showoffs who can convince themselves that things they never would actually do are as commonplace as grease splatters on a kitchen stove.

And speaking of grease splatters—yowp!

THAT'S THE WHOLE situation summed up right there—yowp!

There are women who loll about in the nude because they're too lazy to put on clothes. Everybody knows there are women who spend half their lives in a state of morning frowsiness.

But as for peeling down to do housework, that's silly. I intend to check on this false report and shall let Ann Landers know if I run across confirmation of her correspondents' reports of female nudists running rampant through the kitchens and living rooms of America.

Word would have leaked out long before this if it were true. Everybody would have wanted to be a meter reader.

Hasn't Been Hit Too Hard Yet

Hidden Vote Holds Election Key

By Victor Riesel

While trekking across 12,000 miles of our land, this reporter observed that the presidential campaign is the least publicly discussed national election since the invention of the ballot.

Victor Riesel

It isn't lethary. It's a mysterious reluctance to open up. Whether they are folks in Brownsville, Texas—the southernmost point in the United States—or Bellingham, Wash.—the northermost point—or in Chicago or New York—the most congested points—none but the partisans really reveal how they'll vote or who they believe will carry their states.

Evidently, the independent bloc—the hidden vote—is bigger than is generally realized. It still can swing either way.

That's why labor's political strategists are running more scared than Lyndon Johnson. Their problem cuts deep because their task is far more than the election of the President.

This problem, in view of the massive campaign they've launched against Barry Goldwater, is to bring out a huge and obvious labor vote. Yet, they are harassed by reports of defections especially in the industrial areas.

NO ONE can predict now whether big blocs of the rank and file will go to the Republican nominee because of the still strong backlash or whether they will simply stay at home. If the labor leaders can't get out a record vote they will have lost prestige and power regardless of who wins on Nov. 3.

Thus, behind the scenes, the basic fight for the union chiefs is a duel between themselves and the Republicans' "Big City Program" directed by Sherman Unger, a Cincinnati lawyer.

To pick a key district at random I took a hard look at Chicago. There the GOP Big City activists have a network of 600 five-man teams. By Election Day the program will have another 600 units operating at the polls, working with another network of teams which in turn will have men and women in every precinct. This is the strongest Big City apparatus. It is linked with the drive in Gary, where there is a rank and file labor committee for Goldwater.

LED BY TWO members of the big steel mill locals there, it calls itself "Gary Steelworkers for Truth." It's pouring literature into the hands of thousands of members of Locals 1014 and 2697 of the United Steelworkers of America.

Still selecting cities at random I found labor men working for the Goldwater Citizens Committee in Seattle, Wash. The Washington State Labor News for a big Labor Day advertisement. The GOP gladly bought the space in the News, the oldest labor publication in the state. There was terrific reaction from the labor leadership. The paper was shut down a few weeks later.

During a recent AFL-CIO state convention in Davenport, Iowa, some delegates encountered a Republican gubernatorial nominee in the lobby. There was an argument. A few delegates rushed to the Republican's defense. They offered to defend him physically. They wore Goldwater-Miller buttons.

IN THE EAST, the city of Baltimore is typical of the GOP Big City operation. There last Thursday the Program director rented the big ballroom at the Lord Baltimore Hotel and invited volunteers including some union men in that center of steel mills and electronic factories.

More than 600 jammed the hall. They were organized into teams and given "vote quotas" across the entire city including election districts in which masses of union men live. In a few days they were out working the Big City Program street-by-street stategy which has enabled the Republican party to make over seven million individual contacts across the country.

This is the story in Pittsburgh, Kansas City, Newark, and similar unionized areas, as well as Atlanta, Ga. Program Director Unger has told his national leaders he will have men in every precinct in the big "14" cities where labor is strong as well as in communities where the labor membership is sparse.

HIS PEOPLE also note that some 10,000 workers turned out to hear Barry Goldwater at the Hughes Aircraft landing strip outside Los Angeles on Friday, Oct. 9. The senator's listeners were not unfriendly, though the vast throng was mostly union men.

Thus the fight goes on for the hidden vote. If the Big City Program cuts into the labor ranks by only a few ballots in each precinct it can swing a labor vote for the senator and thoroughly embarrass the union chiefs regardless of the final count in the state.

For many reasons this is a showdown election campaign for the labor leaders.

Letter To Editor

EDITOR OF THE REVIEW:

We wish to thank all the residents of the Lawrenceville area for attending the fire department's open house last Thursday.

We were trying to let the people know what the fire equipment is, how much it cost and what we have to work with. The department has come a long way since it was organized.

However, no one showed up.

The firemen waited, but no one came. We believe this shows what the community thinks of the department and how interested they are.

Anytime—day or night—when someone needs our help, we are only too glad to go to their assistance, serving our area without question, always ready.

We think the community should show a little more interest in our organization. Don't the people care what the equipment cost? Don't they care what the expenses are for upkeep? Don't they care what kind of equipment we have for fighting fires?

We feel the people should take a closer look at what we are trying to do for them, and show the department a little more respect.

Church And State

By David Lawrence

Religious Leaders Enter Political Arena

"Separation of church and state" has been a basic principle of American constitutionalism since the founding of the republic. But the 1964 presidential campaign has revealed some glaring exceptions to the rule.

David Lawrence

Thus, for instance, while prayer in the public schools is being banned on the theory that there must be no form of religion practiced in schools operated by the state, there seem to be no inhibitions felt by church and religious organizations themselves about participating directly in the current presidential campaign.

Some of the church groups, through their publications, have come out openly for one candidate or the other even though this could cost them their tax exemption. But the most conspicuous examples of disregard for the separation of church and state are to be noted in the activities of many church and religious organizations.

Politics is being discussed, moreover, very often inside the churches themselves nowadays and many a sermon contains expressions that point directly to candidates for political office.

JUST THIS WEEK, a statement was issued in St. Louis by Episocpal clergy men and laymen. It was given out for publication in St. Louis in an obvious attempt to get attention at the Episcopal General Convention in progress in that city. The press relations officer of the convention said that the statement had no connection "officially" with the Episcopal Church. It was released to the press at a news conference at an auditorium apart from that in which the delegates met.

The statement was originally mailed to 1,100 Episcopalians — and not to any other religious group — and the 726 signers included 10 Episcopalian bishops. It constituted an attack on Sen. Barry Goldwater, who is himself an Episcopalian. The statement said in part:

"We are profoundly disturbed by the transparent exploitation of racism among white citizens by Sen. Barry Goldwater and Congressman William Miller. . ..

"They have sought to frighten citizens by equating the Negro struggle for freedom with crime and violence in the streets while at the same time encouraging disrespect for law and order by their own expressed contempt for the federal judiciary, especially for the United States Supreme Court.

"They are ambitious to be elected by inheriting the votes of white racists, cultivating and harvesting the white backlash and by importuning the fears and disquiets of white citizens toward social change in both the North and the South."

AN INDIVIDUAL clergyman has a right, as a voter, to express such views on politics or on any other subject but to preach a sermon or sign a political statement calculated to have an effect on the current presidential campaign and to associate the statement with a particular church group raises a question of propriety if the principle of separation of church and state is to be maintained.

It will be recalled that, during the 1960 campaign, there was widespread criticism because of the injection of the religious issue. Catholics deplored statements which implied that Catholics as a religious group were supposed to be voting in a bloc for a coreligionist. Conversely, many Protestants, especially in the South, were accused of voting against the Kennedy candidacy because of his religion.

Universally, the religious issue was deplored, and the general feeling was that, while individual citizens could express themselves as they wished, it was not desirable for American citizens to vote or organize political groups on the basis of religious beliefs.

IT COMES as a surprise this year, therefore, to find an Episcopalian group and other religious units injecting themselves into the campaign. Thus, an article in the New York Times on Oct. 4 said:

"Indications of change in political sentiment have been the endorsement of Mr. Johnson by Protestant - church publications and groups, some of which are taking a position this year for the first time.

"Among these have been the bi - weekly, Christianity and Crisis, whose 18-man editorial board is headed by Dr. Reinhold Niebuhr, professor emeritus of Union Theological Seminary; The Churchman of the Episopalians and the United Church Herald of St. Louis.

"The committee on religion and race of the National Council of Churches has also endorsed the Democratic national ticket, as has the Christian Student Federation in Chicago."

A substantial number of Catholic as well as Jewish publications in different parts of the country also have abandoned their neutrality of the past and come out in favor of the Democratic ticket.

Again and again members of the congregations in various denominations have protested that they do not approve of what their pastors are saying in politically motivated sermons. But as yet the laymen apparently have no effective means of separating the church from the state.

Jury Convicts Lisbon Area Man For Threat

LISBON — Holly Pinkerton of Lisbon R. D. 3 was found guilty by a Common Pleas Court Jury this morning, after deliberating over three hours, on a charge of threatening Paul Terry Milhoan, also of Lisbon R. D. 3, with a shotgun last July 25 on a farm south of Lisbon.

The case centered around a dispute over the property line on two Elkrun Township farms. Milhoan was making hay on land Pinkerton claims he owns and Pinkerton ordered him off, holding a 410 gauge shotgun, which was not loaded.

Judge Raymond S. Buzzard held up sentencing pending application for new trial. The offense is a misdemeanor, court authorities said.

Welfare Department Wards Total Rises

LISBON — The number of children in the care of the County Welfare Department showed a net increase of three during September, according to the monthly report of Robert Bycroft, director.

to accept his contributions to the pension fund, entitling him to all protection of Civil Service laws and monies of the office, retroactive to June 16, 1963, and to treat him in all respects as any other member of the police force of the city of Wellsville."

While Amato claims he has been sworn in as a patrolman, the city administration contends he was not named as a regular patrolman, but only as a special officer. Appointments are made by the mayor.

There has been a vacancy on the force since Joseph Heiney resigned.

Earlier this year the Civil Service Commission voided the police eligibility list containing the names of Amato and Leonard Hephner. This is allowed under law after the list is over a year old, it was ruled.

The commission then conducted another competitive examination. The names of Charles Potts and William Reed were placed on the new list. Amato did not take this exam. The mayor refused to make an appointment from the list, asking for at least three names, which he can do according to law.

Another exam is slated next month.

Larceny Trial Of 2 Ends In 'Hung' Jury

LISBON — A Common Pleas Court jury deliberated over four hours Wednesday then advised Judge Ryamond S. Buzzard it was unable to reach a verdict in the trial of two Salem district men accused of larceny. The "hung" jury reported at 2:05 p. m.

Arnold Lee Puckett, 20, and John Leonard Jarrett, 22, both of Salem R. D. 4, went to trial Tuesday on an indictment in attempted theft last March 23 at the Cherry Valley Sand Co. near Leetonia.

They were arrested on the property with their hands and clothing glowing with phosphorescent material that had been dusted on scrap metal in the plant yard. None of the material had been taken but it had been moved, authorities said.

It is not known when the case may be retried but it will not come up again before next week.

Kensington Man Held In Lisbon Truck Theft

LISBON — Lawrence Eugene Hagan, 32, of Kensington is being held at Elkins, W. Va., after arrest at Philippi, W. Va., in a truck of the Kuhns Hardware reported stolen last Thursday from a parking lot.

Police Chief Leon Zahrndt and Capt. He was arrested in Philippi when unable to produce registration for the truck.

The driver of rig whose trailer overturned, dumping a bundle of sheet steel that snapped off a telephone pole west of Wellsville, and a driver of a milk truck which hit a fence were cited Wednesday by the Ohio Highway Patrol at Lisbon.

The double-trailer rig of Harry Irwin Leonard, 34, of Massillon was rounding a curve of Route 39 about three miles from Wellsville at 9:45 when the load shifted on the four-wheeled trailer.

Out Of The Air

By RICHARD K. DOAN

The Ratings Racket

The network ratings frenzy has reached a state of total confusion, for all except the statistical wiseacres. It's now a thorough case of which survey d'ya read.

Richard Doan

ABC emerged over the week-end with another claim to the network ratings crown, this time showing CBS so badly skunked it had not one show in the Top 10!

-:-

LAST SEASON CBS had all the Top 10 shows except one, and that was NBC's "Bonanza."

Last Friday NBC issued a survey showing it was the No. 1 network and "Bonanza" the No. 1 show.

ABC's latest claim to fame is a 30-market Nielsen for the week ending Oct. 4. The network said it showed the prime-evening standings to be: ABC 21.3, CBS 17.6, NBC 17.2.

t found ABC's "Bewitched" as out front as the nation's favorite show, followed by ABC's "The Fugitive," "The Addams Family," "My Three Sons," "Peyton Place" (Thursdays), "Valentine's Day," Patty Duke, Bing Crosy, "Ben Casey" and McHale's Navy," the latter three shows tied with NBC's "Bonanza."

-:-

FOLLOWING THESE in popularity came "No Time for Sergeants," "The Munsters," "Wendy and Me," "Peyton Place" (Tuesdays), "Voyage to the Bottom of the Sea," "Combat," "Beverly Hillbillies," Dick Van Dyke, "Saturday Night at the Movies," "Tycoon," Lucille Ball, "Broadside," "Farmer's Daughter," "Gomar Pyle," "Wednesday Night at the Movies," "Petticoat Junction," "Many Happy Returns," "Ozzie and Harriet" and "My Favorite Martian."

It looked like an unprecedented sweep for ABC, especially for its new fall shows.

ABC said the survey showed ABC dominated Monday, Tuesday, Thursday and Friday nights, NBC Wednesday, Saturday and Sunday nights, and CBS none.

—:—

IT SHOWED, ABC said, a 22 per cent gain for ABC over a year ago, CBS down 11 per cent, NBC up 3.

The 30-market Nielsens survey cities where all three networks are in full competition. Actually, the industry is more governed in its decisions by the so-called national Nielsens.

This year it is expected the definitive ratings will not be forthcoming until after the pro-election campaign.

The National Arbitrons, on which NBC based its claims to have edged into the lead, is a telephone survey, said to be based on 80,000 calls a week to viewers from coast to coast.

Some networks say it tends to diverge only fractionally from the decisive national Nielsens.

What appears most significant to some observers is the general indication that CBS may have been tumbled from its vaunted position as No. 1 network.

-:-

THE THREE national networks will decide the fate of the Emmy awards in the next few days.

If reaction to the Academy of Television Arts and Sciences proposal for revamping the awards is favorable on the part of at least two of the three networks, Rod Serling, president of the academy, will formally announce the details of the new Emmy competition.

Sterling was in New York last week to pitch the Emmy overhaul to top network executives. Before leaving to return to his home in Hollywood, the playwright said, "We feel we have offered the best, the fairest, the most qualitative approach we can conceive, and if they (the networks) can't accept it, so be it. We won't have any alternative plan to offer.

-:-

"IF AT LEAST two networks accept, we'll go ahead. If only one backs us, or none at all, the Emmy's will, of course, be dead."

That would spell the end of the academy, too, he conceded.

So far, Serling and other academy officials have declined to discuss their new plan publicly. It is said, however, to involve open nominations, but panels of programming experts. Also, rigid award categories are abolished in favor of judging entirely on merit.

Bringing Up Family

By DR. GARRY MYERS

Creative Writing Important To Child

A big problem of the teacher is to find ways to stimulate creativeness in the writing by the child or youth. She wants him to practice at learning proper forms of expression, including spelling, grammar and punctuation. But the pupil or student and his teacher may be so encumbered with these formal matters as to give little attention to creativeness.

Dr. Garry Myers

So when a child in the third, seventh or tenth grade writes something for the teacher to evaluate, this teacher, naturally, sees first his bad spelling, grammar or punctuation, capitalization and the like. However original his ideas and freshness of expressing them are, he may get little or no reward for such, while being severely penalized for the poor mechanics of expression.

—:—

HOW often the paper by the student in high school or college, outstanding for its creative content, is marked very low or failing because of a few errors in spelling, punctuation or grammar. Little or no weight may be given to its originality of ideas or expressions.

Often a pupil or student, low in form of writing, is handicapped the rest of his school life in his written work. He may become so discouraged as to suppose creativeness is unimportant. Certainly the average teacher gives the impression to the child and youth that it is.

Even most parents, trying to help the child write letters and papers assigned at school, tend also to emphasize form far more than creativeness. Yet form is very important. So a dilemma faces the teacher and parent: how to encourage the child to write creatively and still acquire good form of written expression.

An occasional teacher in the first or second grade has children individually dictate to her briefly an idea of their own. She writes it down as he says it (any parent might do this).

—:—

SHE helps him enjoy having so expressed his idea, and, for the time, says nothing about the mechanics of it. Then she reads it back to him and, if its sentence form and the like could easily be improved, she tells him how. She may even have him copy it, observing its correct spelling and the like.

On the basis of what she has learned from a number of these brief units dictated by several of the individual children, she spends time with them later in groups at learning good form of expression.

An occasional teacher in junior and senior high school and college first evaluates (grades) a student's paper on its content of expression, giving strong weight to its organization and originality, overlooking for the time its mechanics.

Then this teacher grades the paper again for its spelling, grammar, clarity, punctuation, capitalization and so forth. She may require him to rewrite it in more accurate form.

—:—

HOW much weight this teacher places on each of these separate grades depends on what she is aiming to emphasize with the student. With this approach, she surely does reward the student for his creativeness. What do you think about this problem?

My bulletin, "Stimulate Your Child's Imagination", may be secured by sending a self-addressed, stamped envelope to me in care of The Review.

Out Of The Air

By RICHARD K. DOAN

The Ratings Racket

The network ratings frenzy has reached a state of total confusion, for all except the statistical wiseacres. It's now a thorough case of which survey d'ya read.

Richard Doan

ABC emerged over the week-end with another claim to the network ratings crown, this time showing CBS so badly skunked it had not one show in the Top 10!

-:-

LAST SEASON CBS had all the Top 10 shows except one, and that was NBC's "Bonanza."

Last Friday NBC issued a survey showing it was the No. 1 network and "Bonanza" the No. 1 show.

ABC's latest claim to fame is a 30-market Nielsen for the week ending Oct. 4. The network said it showed the prime-evening standings to be: ABC 21.3, CBS 17.6, NBC 17.2.

t found ABC's "Bewitched" as out front as the nation's favorite show, followed by ABC's "The Fugitive," "The Addams Family," "My Three Sons," "Peyton Place" (Thursdays), "Valentine's Day," Patty Duke, Bing Crosy, "Ben Casey" and McHale's Navy," the latter three shows tied with NBC's "Bonanza."

-:-

FOLLOWING THESE in popularity came "No Time for Sergeants," "The Munsters," "Wendy and Me," "Peyton Place" (Tuesdays), "Voyage to the Bottom of the Sea," "Combat," "Beverly Hillbillies," Dick Van Dyke, "Saturday Night at the Movies," "Tycoon," Lucille Ball, "Broadside," "Farmer's Daughter," "Gomar Pyle," "Wednesday Night at the Movies," "Petticoat Junction," "Many Happy Returns," "Ozzie and Harriet" and "My Favorite Martian."

It looked like an unprecedented sweep for ABC, especially for its new fall shows.

ABC said the survey showed ABC dominated Monday, Tuesday, Thursday and Friday nights, NBC Wednesday, Saturday and Sunday nights, and CBS none.

—:—

IT SHOWED, ABC said, a 22 per cent gain for ABC over a year ago, CBS down 11 per cent, NBC up 3.

The 30-market Nielsens survey cities where all three networks are in full competition. Actually, the industry is more governed in its decisions by the so-called national Nielsens.

This year it is expected the definitive ratings will not be forthcoming until after the pro-election campaign.

The National Arbitrons, on which NBC based its claims to have edged into the lead, is a telephone survey, said to be based on 80,000 calls a week to viewers from coast to coast.

Some networks say it tends to diverge only fractionally from the decisive national Nielsens.

What appears most significant to some observers is the general indication that CBS may have been tumbled from its vaunted position as No. 1 network.

-:-

THE THREE national networks will decide the fate of the Emmy awards in the next few days.

If reaction to the Academy of Television Arts and Sciences proposal for revamping the awards is favorable on the part of at least two of the three networks, Rod Serling, president of the academy, will formally announce the details of the new Emmy competition.

Sterling was in New York last week to pitch the Emmy overhaul to top network executives. Before leaving to return to his home in Hollywood, the playwright said, "We feel we have offered the best, the fairest, the most qualitative approach we can conceive, and if they (the networks) can't accept it, so be it. We won't have any alternative plan to offer.

-:-

"IF AT LEAST two networks accept, we'll go ahead. If only one backs us, or none at all, the Emmy's will, of course, be dead."

That would spell the end of the academy, too, he conceded.

So far, Serling and other academy officials have declined to discuss their new plan publicly. It is said, however, to involve open nominations, but panels of programming experts. Also, rigid award categories are abolished in favor of judging entirely on merit.

City Nurse Receives Recognition At OSNA

Mrs. Blanche Apel, a member of the Private Duty Section of City Hospital, received special recognition at the 61st annual convention of the Ohio State Nurses Association Monday through Friday at Columbus.

A graduate of the 1917 Class of City Hospital, she holds the longest, consecutive record for private duty nursing, in which she has been actively engaged for 47 years. A member of District 3, she received an engraved silver bowl at the breakfast for private duty nurses.

Delegates attending from here were Miss Etheyn Exley, who served as a chairman of the convention committee; Mrs. Wilma Nichols, president of the City Hospital Alumnae Association, Mrs. Senja Vaughn and Mrs. Apel.

Mrs. Peg Sullivan, another member of District 3, was elected a member-at-large for the Private Duty Section and also chairman of the nominating committee for the state group.

Bringing Up Family

By DR. GARRY MYERS

Creative Writing Important To Child

A big problem of the teacher is to find ways to stimulate creativeness in the writing by the child or youth. She wants him to practice at learning proper forms of expression, including spelling, grammar and punctuation. But the pupil or student and his teacher may be so encumbered with these formal matters as to give little attention to creativeness.

Dr. Garry Myers

So when a child in the third, seventh or tenth grade writes something for the teacher to evaluate, this teacher, naturally, sees first his bad spelling, grammar or punctuation, capitalization and the like. However original his ideas and freshness of expressing them are, he may get little or no reward for such, while being severely penalized for the poor mechanics of expression.

—:—

HOW often the paper by the student in high school or college, outstanding for its creative content, is marked very low or failing because of a few errors in spelling, punctuation or grammar. Little or no weight may be given to its originality of ideas or expressions.

Often a pupil or student, low in form of writing, is handicapped the rest of his school life in his written work. He may become so discouraged as to suppose creativeness is unimportant. Certainly the average teacher gives the impression to the child and youth that it is.

Even most parents, trying to help the child write letters and papers assigned at school, tend also to emphasize form far more than creativeness. Yet form is very important. So a dilemma faces the teacher and parent: how to encourage the child to write creatively and still acquire good form of written expression.

An occasional teacher in the first or second grade has children individually dictate to her briefly an idea of their own. She writes it down as he says it (any parent might do this).

—:—

SHE helps him enjoy having so expressed his idea, and, for the time, says nothing about the mechanics of it. Then she reads it back to him and, if its sentence form and the like could easily be improved, she tells him how. She may even have him copy it, observing its correct spelling and the like.

On the basis of what she has learned from a number of these brief units dictated by several of the individual children, she spends time with them later in groups at learning good form of expression.

An occasional teacher in junior and senior high school and college first evaluates (grades) a student's paper on its content of expression, giving strong weight to its organization and originality, overlooking for the time its mechanics.

Then this teacher grades the paper again for its spelling, grammar, clarity, punctuation, capitalization and so forth. She may require him to rewrite it in more accurate form.

—:—

HOW much weight this teacher places on each of these separate grades depends on what she is aiming to emphasize with the student. With this approach, she surely does reward the student for his creativeness. What do you think about this problem?

My bulletin, "Stimulate Your Child's Imagination", may be secured by sending a self-addressed, stamped envelope to me in care of The Review.

Red Who Endangered McNamara Executed

SAIGON, South Viet Nam (AP) — A 19-year-old Viet Cong agent who tried to kill U.S. Defense Secretary Robert S. McNamara went before a firing squad today shouting "Long live Ho Chi Minh" and "Americans get out of Viet Nam."

Guards dragged Nguyen Van Troi from Chi Hoa Prison to a nearby soccer field where 11 military policemen waited with carbines.

After repeatedly shouting defiance of Americans and Premier Nguyen Khanh, the condemned youth screamed his final salute to Ho Chi Minh, the president of Communist North Viet Nam.

Officials Probe Fire Fatal To 4 Children

HILLSBORO, Ohio (AP)—Officials were investigating today the explosion and fire that killed four children of Mr. and Mrs. Tom Turner.

The fire wrecked the Turner home in the all-Negro community of Gest, near New Vienna, Wednesday.

Killed were Alicia Turner, 15 months; Lisa, 3; Rhonda, 6, and Timmy, 2.

Turner rescued three other children. His wife was outside the house at the time.

It was believed the fire started when Turner apparently threw gasoline on a stove, which triggered the explosion.

Recipients Of Awards

WASHINGTON (AP) — Two scientists at the National Aeronautics and Space Administration's Lewis Research Center in Cleveland, Ohio, were presented invention awards today by NASA Administrator James E. Webb.

Virgil Sandborn and Lionel V. Baldwin were jointly awarded $1,000 for contributions to an apparatus to detect and measure the power density of a beam of particles.

Board Due Blueprint On Higher Education

COLUMBUS, Ohio (AP) — Ohio's so-called blueprint for higher education, in the making by a team of experts since last winter, probably will be turned over to the State Board of Regents in mid-November.

The regents' state headquarters said Wednesday that the top advisory committee of the Academy for Educational Development, commissioned in February to draw the master plan, should have its report ready at that time.

The committee in July received the findings of specialized experts who were employed to look into all the state's needs in higher education, including universities and four-year colleges, branch and community colleges and technical institutes.

Unity's Firemen Slate Groundbreaking Rites

UNITY — A groundbreaking ceremony will be held Saturday afternoon at 4 by the United volunteer firemen for a new fire house to be erected along Route 165 about 200 yards north of Route 14.

The 40-x-50-foot cement block structure, which will have a steel roof, will be built on a lot 107 by 160 feet bought by the department. There is no estimate of the cost because most of the work will be volunteered and materials donated, Robert Murphy, president, said.

The 30-man department was organized a year ago. John Shearer is chief.

Red Who Endangered McNamara Executed

SAIGON, South Viet Nam (AP) — A 19-year-old Viet Cong agent who tried to kill U.S. Defense Secretary Robert S. McNamara went before a firing squad today shouting "Long live Ho Chi Minh" and "Americans get out of Viet Nam."

Guards dragged Nguyen Van Troi from Chi Hoa Prison to a nearby soccer field where 11 military policemen waited with carbines.

After repeatedly shouting defiance of Americans and Premier Nguyen Khanh, the condemned youth screamed his final salute to Ho Chi Minh, the president of Communist North Viet Nam.

Officials Probe Fire Fatal To 4 Children

HILLSBORO, Ohio (AP)—Officials were investigating today the explosion and fire that killed four children of Mr. and Mrs. Tom Turner.

The fire wrecked the Turner home in the all-Negro community of Gest, near New Vienna, Wednesday.

Killed were Alicia Turner, 15 months; Lisa, 3; Rhonda, 6, and Timmy, 2.

Turner rescued three other children. His wife was outside the house at the time.

It was believed the fire started when Turner apparently threw gasoline on a stove, which triggered the explosion.

Recipients Of Awards

WASHINGTON (AP) — Two scientists at the National Aeronautics and Space Administration's Lewis Research Center in Cleveland, Ohio, were presented invention awards today by NASA Administrator James E. Webb.

Virgil Sandborn and Lionel V. Baldwin were jointly awarded $1,000 for contributions to an apparatus to detect and measure the power density of a beam of particles.

Board Due Blueprint On Higher Education

COLUMBUS, Ohio (AP) — Ohio's so-called blueprint for higher education, in the making by a team of experts since last winter, probably will be turned over to the State Board of Regents in mid-November.

The regents' state headquarters said Wednesday that the top advisory committee of the Academy for Educational Development, commissioned in February to draw the master plan, should have its report ready at that time.

The committee in July received the findings of specialized experts who were employed to look into all the state's needs in higher education, including universities and four-year colleges, branch and community colleges and technical institutes.

Unity's Firemen Slate Groundbreaking Rites

UNITY — A groundbreaking ceremony will be held Saturday afternoon at 4 by the United volunteer firemen for a new fire house to be erected along Route 165 about 200 yards north of Route 14.

The 40-x-50-foot cement block structure, which will have a steel roof, will be built on a lot 107 by 160 feet bought by the department. There is no estimate of the cost because most of the work will be volunteered and materials donated, Robert Murphy, president, said.

The 30-man department was organized a year ago. John Shearer is chief.

Brochure Backs Levies On Beaver Local's Ballot

Restoration of cutbacks in school programs and elimination of a supply charge for Beaver Local pupils would be made possible with passage of two proposed levies in Beaver Local School District, a brochure published by a citizens' group declares.

The Association for Advancement of Beaver Local Education has begun distribution of the brochure in promoting passage of a proposed renewal of a 1.6-mill levy and a new 5.4-mill levy in the Nov. 3 election.

Cost of the additional levy, designed to make up decreases in state foundation aid in recent years, would amount to about $1.80 a month in taxes for the average householder, or less than 6 cents a day, ABLE reports.

The levy would restore a number of services reduced because of the financial pinch — all high school sports and Public School sports, extra coaches and faculty advisers, a janitor, maintenance man, summer music program, vocal music, kindergarten, summer school classes and expanded use of school buildings by the community.

ABLE's brochure points out Beaver Local, which has one of the highest median incomes in Columbiana County, has the second lowest millage. The district spends, according to ABLE, less per pupil than the average district in Ohio and the nation.

The brochure, issued by a committee headed by Roland Marshall of Clearview Dr., urges support of the levies to improve the schools, modernize texts, continue the present bus program, which may be cut back, and maintain an educational system which "properly prepares the district youngsters for future jobs and college."

"Vote in support of the levies, and protect one of the most precious rights we have — the high quality education of our children," the brochure requests.

It also lists phone numbers which may be called for transportation to and from the polls on election day.

Miss Ann Johnson, principal, recognized the teachers.

Contributions included $25 to the Child Counseling Center, $5 to the City PTA Federation and $25 for the cost of the promotion for the school bond levy.

Mrs. Linda Milne's first grade won the attendance award.

The date of the next meeting will be announced.

Applications Sought For School Custodian

SALINEVILLE — Applications are being received by the Southern Local School District Board of Education for custodian at Wayne School.

The post was left vacant with the death of Dan Saling in September. The board will meet Monday night at 7 to consider a successor.

Park Group Shows Profit From Circus

A report on the circus sponsored Oct. 2 was presented by Fire Chief Robert Lewis, chairman, at a meeting of the Wellsville Hammond Park Commission Wednesday night.

The commission realized a profit of $505.54 from the project. "This was good, considering the rainy weather and the time of year for the appearance," Lewis commented.

The money assures that the park commission it will be able to make some of the improvements planned. By next spring, the group plans to have city water installed at both pavilions. More park area will be developed and electric lights installed at the pavilions.

Mr. and Mrs. Ed Byers will begin this week to serve as caretakers at the park. They will reside in a trailer home inside the park.

Lewis cited various individuals and groups who aided in the promotion for the circus, including other members of the commission, Mrs. Vera Valentine, Wayne Rose, Mrs. Helen Welch and Pete Mase.

County Firemen Will Hold School

The Columbiana County Firemen's Association will hold its annual fire school Sunday and Oct. 25 at Leetonia.

There will be a three - hour session each morning, an hour lunch period and another three-hour session in the afternoon.

Eldon Holt, Leetonia fire chief, is general chairman. Charles Goetz, Ohio trades and industrial co-ordinator, will assist.

Classes will be conducted in general rescue, house fires and salvage.

Robert Samek of Negley is president of the association.

Fire Chief Robert Lewis and Assistant Chief Robert Lloyd of Wellsville are among the instructors.

County Followup Slated

Volunteers To Question 1,439 In Cancer Study

The fifth annual followup in the American Cancer Society's massive cancer prevention study will get under way Tuesday in Columbiana County.

Society volunteers in the county will again check on the health status of the 1,439 men and women they enrolled when the study started in the fall of 1959.

Nationwide, according to Mrs. Lawrence Sixt of East Liverpool, co-ordinator, the study covers more than a million people in 1,121 counties in the United States. In Ohio, some 88,527 men and women are participating.

Mrs. Sixt said that in 1959 these persons furnished many details about themselves and their pattern of life. "They filled 250 carefully - framed questions that might lead to determining if those who develop cancer differ in some ways from those who don't, with respect to environment, habits, exposures, and way of life."

Mrs. Sixt said that after two followups, valuable information has emerged from the study and preliminary analysis has:

(1) — Confirmed that certain warning signs had a high relationship to death for specific sites of cancer.

(2) — That certain physical complaints such as loss of appetite, shortness of breath and a tendency to fatigue easily, were related to the cancer death rate. Further analysis will be made to determine whether these symptoms appear before cancer has spread to an incurable stage.

"The importance of the cancer prevention study can best be illustrated in that the followup information has provided valuable statistics linking cigarette smoking and lung cancer and took an important part of the surgeon general's report on "Smoking and Health," Mrs. Sixt said.

Childhood Fatness May Mean Adult Obesity

The most touching letters come from the overweight 10 and 12-year-old youngsters. In big, rounded letters they write . . ."I'm too fat and the kids all make fun of me. . ."

Ida Jean Kain

This brings up the question of why there are so many overweight children today. It isn't hard to find the answer—lack of physical exercise, plus fattening food habits. With so many mothers working, unsupervised after-school eating may be a big factor.

—:—

YET STUDIES show that lack of exercise appears to be more significantly related to overweight in children than does excess food. It's a familiar vicious circle. With too little physical exercise it is easy to gain weight, and after children become overweight they are shy about taking part in active play because they make a poor showing in games. Or, as one youngster wrote. . ."Nobody wants me on their team because I'm too fat."

Parents of overweight children, if your child is seriously overweight, take him or her to the family doctor, or to a children's clinic. The doctor no longer equates overweight in children with a sign of robust health. Nor is he likely to take the attitude that the child will automatically "outgrow" the fat. If fattening food habits are not checked, the youngster is likely to turn into an overweight adult. In short, childhood fatness may be the first stage to obesity.

A significant point: The overweight youngsters often write that the refrigerator is stocked with fattening foods. Mothers, you can make it easier for your children by having some filling but non-fattening foods ready for them. On coming home from school in the afternoon, any youngster is hungry.

So, for a non-fattening after-school snack, why not have on hand a deviled egg made with mustard and chopped celery, a big red apple, or hot cocoa made with skim milk?

Give the overweight child a break. When serving a rich dessert to the family, plan a special non-fattening treat for the chubby one . . . strawberry angel cake, for instance.

—:—

PLAN GOOD meals that are not overly rich and you will do the entire family a favor. Your growing boys and girls need good quality protein, properly cooked vegetables, salads, milk, whole grain cereals and fruits, so build every meal around a good protein and foods rich in minerals.

These meals, plus stepped up exercise, will keep the youngsters lean and fit.

Case Institute Head Quits Post After 18 Years

CLEVELAND (AP) — Saying the job must be in the hands of a younger person, Dr. T. Keith Glennan has resigned as president of Case Institute of Technology, a post he has held 18 years.

Glennan, 59, was the first administrator of the National Aeronautics and Space Administration and from 1950 to 1952 was a member of the Atomic Energy Commission. In both jobs, he was on leave from Case.

Elmer L. Lindseth, chairman of the board of trustees, announced Wednesday night that Glennan submitted his resignation at the annual board meeting Monday. It is effective at the end of the academic year in June.

"This has not been an easy one, nor has it been made hastily," said Glennan. "The simple facts are that Case, after a period of rapid change and substantial growth in quality, must set its sights once more to the future.

"It is absolutely essential that leadership be in the hands of a younger person, able and willing to devote at least 10 years of his life to this job."

Wellsville Firemen Respond To 2 Calls

Wellsville firemen checked an overheated car and an overheated skillet in two runs Wednesday. They were called to the home of Jesse Hawk, 1615 Riverside Ave., at 11:05 a. m. when Mrs. Hawk became alarmed at steam coming from the family car.

She had just driven the car into the driveway and, spotting the steam, thought it was burning, firemen said. Smoke from grease in a skillet in the oven filled the home of Perry Daniels, 341 Broadway, at 12:05 p. m. Assistant Fire Chief Robert Lloyd and Fireman Frank Fusco investigated. No damage resulted.

Ed Bowyer, commander, appointed Wilson as chairman of the kitchen committee with Don Glenn, Bob Buckley, and John Maola.

Don Jones, Americanism chairman, reported presentation of flags to the Beaver Local High and Elementary Schools. A $20 donation was accepted from Jim White of White's Refuse Disposal for the children's Christmas party.

Bert Keck and Don Haynes were reported ill. The next meeting will be Tuesday.

Hints from Heloise

— By Heloise Cruse —

Dear Heloise: I have 10 kids. All of them are in school. Fortunately, we have a home freezer. Instead of making a pile of sandwiches each weekend and putting them in our freezer, we pack the complete lunches in sacks.

I never put a name on a sack! Each child goes to the freezer and picks up his lunch before he leaves for school. He never knows what he is going to get.

You know what? Some who never before would eat chicken have learned to like it. The others now eat baloney, ham, peanut butter, etc.

This is a good way to break them in. And it saves mother lots of trouble.

MOTHER OF TEN

Dear Heloise: To my dismay, I found my child's small toys all over the house. Such toys were constantly being swept up in the vacuum cleaner.

Then I hit upon the idea of using plastic, stack-vegetable bins for these small toys and stacking them in the child's closet.

Now my youngster can play with his toys and when it is time to pick up his things he just dumps them back into the bins. He loves putting all of the little toys back in each bin and re-stacking them in his closet.

My house now stays much cleaner and his favorite toys are not lost or thrown out in the trash.

SHERRIE HASKETT

-:-

You are a doll to tell us this. However, have you ever thought about using those wonderful coffee cans with the plastic tops and marking the tops of the cans with a felt ink marker for individual groupings, such as toy soldiers, logs or cars?

These cans far outlast the original boxes the toys come in.

But remember, there is no way to remove the markings made by felt markers on plastic. It soaks in!

Many women have used these markers on their expensive plastic kitchen ware. Companies tell us that it cannot be removed.

HELOISE

Dear Heloise: When brush rollers wear out and no longer catch the hair or stay in place, some can be salvaged by removing the brushes and placing them in the next smaller size rollers.

They will work nearly as well as new rollers.

MRS. G. W. OWEN

Dear Heloise: When I first brought my baby back home from the hospital, my mother pinked eight-inch squares from an old sheet.

She cut several dozen of these squares and stacked them along with a pile of folded diapers.

At every diaper change, I could just sponge my baby with one of these little cloths, dampened with warm water. They went right in with the diapers to be washed and dried.

What if I'd had to buy all those wash cloths? And how much more space they would have taken up in the washer! Also, this way I can easily distinguish the baby's wash cloths from ours.

Grant Of $73,000 Spurs Improving Of McKinley Site

COLUMBUS — The Timken Foundation of Canton has made a grant of $73,000 to the Ohio Historical Society to refurbish completely and to improve the President William McKinley State Memorial in Canton.

Announcement of the grant was made during the quarterly meeting of the society's Board of Trustees by William H. Vodrey Jr. of East Liverpool, first vice president of the society.

The grant will make possible the complete interior and exterior renovation of the McKinley Tomb structure and will enable the society, administrator of the memorial, to improve the 24-acre grounds.

Limited work, including regrouting the exterior walls and cleaning interior marble, has already begun. The project is planned to be completed during 1965.

This is the second Timken grant awarded the society this year. Earlier, $15,000 has been provided to arrange and catalogue the presidential papers of Warren G. Harding.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Before we married I smoked two packs of cigarettes a day. My husband asked me to stop smoking and I promised I would. I did stop—for a while. Several weeks ago I started smoking again, secretly.

My husband smelled smoke on my breath yesterday and made such a scene you'd have thought I had committed a murder. He said I broke my word, that I am a liar and a sneak and he can't live with this sort of thing.

I love my husband and I'd rather die than lose him. I feel, however, that an adult woman should be allowed to smoke if she wants to and that he has no right to impose his will on me. May I have your opinion? — NICOTINE NAN.

-:-

Dear Nan: I agree that an adult woman should smoke if she wants to, but this particular adult woman surrendered that privilege when she promised her husband she'd quit.

If your husband is as important to you as you say, you'll kick the habit. A woman who would rather smoke than save her marriage doesn't deserve the guy.

Silence Is Golden?

Dear Ann: Shall we hum a requiem for the correspondent who signed himself "Renois"? He spent $500 on records, books and flowers on the dumb broad, all the while mistaking her silence for wisdom.

I, too, was fooled by the same type. The music of our heavenly relationship was exquisite, but not until later did I realize I was plucking at muted strings and that there was no instrument attached.

The conversation that did it was this:

"What music do you prefer, Hon?"

"Oh well . . . you know . . . music."

"But I mean, do you like Corellis, Piston, Weber — Strauss?"

"Strauss. Yes, I like Strauss."

"Which one, Johann or Richard?"

"Huh?"

"Never mind. Which composition do you like best?"

"Uh? Oh . . . the Blue Daniel."

When I heard THAT, everything became clear. I'm glad I read "Renoir's" letter. I didn't think such a thing could happen twice in the same century. — DEGAS.

-:-

Dear Degas: It happened three times in the same century. Another reader dropped a girl he thought was bright after one visit to church.

"I couldn't believe my ears," he wrote. "When she said, 'Father who art in heaven, HALLOWEEN thy name, "I asked her to repeat it. She did — just that way. It was our last date."

Choose Your Time

Dear Ann: Recently in a column you advised parents to tell their children of previous marriages. What about a police record?

When I was 18 I got mixed up with narcotics, was arrested and put on probation for two years. I'm happy to say I beat the tremendous odds and succeeded in straightening around.

It is 10 years later and I am happily married to a good man. We have a young son. I am haunted by the fear that my son may learn of my unsavory history from friends or relatives.

Should I tell the boy about my past? If so — at what age? — LUCKY WOMAN.

-:-

Dear Woman: Tell your son about your past but choose the appropriate time and place.

Better if you can weave the information in with another story, making the central theme "people can change and improve if they work hard at it." And let your son know you are trusting him with an adult-type confidence which he should keep to himself.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self - addressed envelope.

Hints from Heloise

— By Heloise Cruse —

Dear Heloise: I have 10 kids. All of them are in school. Fortunately, we have a home freezer. Instead of making a pile of sandwiches each weekend and putting them in our freezer, we pack the complete lunches in sacks.

I never put a name on a sack! Each child goes to the freezer and picks up his lunch before he leaves for school. He never knows what he is going to get.

You know what? Some who never before would eat chicken have learned to like it. The others now eat baloney, ham, peanut butter, etc.

This is a good way to break them in. And it saves mother lots of trouble.

MOTHER OF TEN

Dear Heloise: To my dismay, I found my child's small toys all over the house. Such toys were constantly being swept up in the vacuum cleaner.

Then I hit upon the idea of using plastic, stack-vegetable bins for these small toys and stacking them in the child's closet.

Now my youngster can play with his toys and when it is time to pick up his things he just dumps them back into the bins. He loves putting all of the little toys back in each bin and re-stacking them in his closet.

My house now stays much cleaner and his favorite toys are not lost or thrown out in the trash.

SHERRIE HASKETT

-:-

You are a doll to tell us this. However, have you ever thought about using those wonderful coffee cans with the plastic tops and marking the tops of the cans with a felt ink marker for individual groupings, such as toy soldiers, logs or cars?

These cans far outlast the original boxes the toys come in.

But remember, there is no way to remove the markings made by felt markers on plastic. It soaks in!

Many women have used these markers on their expensive plastic kitchen ware. Companies tell us that it cannot be removed.

HELOISE

Dear Heloise: When brush rollers wear out and no longer catch the hair or stay in place, some can be salvaged by removing the brushes and placing them in the next smaller size rollers.

They will work nearly as well as new rollers.

MRS. G. W. OWEN

Dear Heloise: When I first brought my baby back home from the hospital, my mother pinked eight-inch squares from an old sheet.

She cut several dozen of these squares and stacked them along with a pile of folded diapers.

At every diaper change, I could just sponge my baby with one of these little cloths, dampened with warm water. They went right in with the diapers to be washed and dried.

What if I'd had to buy all those wash cloths? And how much more space they would have taken up in the washer! Also, this way I can easily distinguish the baby's wash cloths from ours.

Grant Of $73,000 Spurs Improving Of McKinley Site

COLUMBUS — The Timken Foundation of Canton has made a grant of $73,000 to the Ohio Historical Society to refurbish completely and to improve the President William McKinley State Memorial in Canton.

Announcement of the grant was made during the quarterly meeting of the society's Board of Trustees by William H. Vodrey Jr. of East Liverpool, first vice president of the society.

The grant will make possible the complete interior and exterior renovation of the McKinley Tomb structure and will enable the society, administrator of the memorial, to improve the 24-acre grounds.

Limited work, including regrouting the exterior walls and cleaning interior marble, has already begun. The project is planned to be completed during 1965.

This is the second Timken grant awarded the society this year. Earlier, $15,000 has been provided to arrange and catalogue the presidential papers of Warren G. Harding.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: Before we married I smoked two packs of cigarettes a day. My husband asked me to stop smoking and I promised I would. I did stop—for a while. Several weeks ago I started smoking again, secretly.

My husband smelled smoke on my breath yesterday and made such a scene you'd have thought I had committed a murder. He said I broke my word, that I am a liar and a sneak and he can't live with this sort of thing.

I love my husband and I'd rather die than lose him. I feel, however, that an adult woman should be allowed to smoke if she wants to and that he has no right to impose his will on me. May I have your opinion? — NICOTINE NAN.

-:-

Dear Nan: I agree that an adult woman should smoke if she wants to, but this particular adult woman surrendered that privilege when she promised her husband she'd quit.

If your husband is as important to you as you say, you'll kick the habit. A woman who would rather smoke than save her marriage doesn't deserve the guy.

Silence Is Golden?

Dear Ann: Shall we hum a requiem for the correspondent who signed himself "Renois"? He spent $500 on records, books and flowers on the dumb broad, all the while mistaking her silence for wisdom.

I, too, was fooled by the same type. The music of our heavenly relationship was exquisite, but not until later did I realize I was plucking at muted strings and that there was no instrument attached.

The conversation that did it was this:

"What music do you prefer, Hon?"

"Oh well . . . you know . . . music."

"But I mean, do you like Corellis, Piston, Weber — Strauss?"

"Strauss. Yes, I like Strauss."

"Which one, Johann or Richard?"

"Huh?"

"Never mind. Which composition do you like best?"

"Uh? Oh . . . the Blue Daniel."

When I heard THAT, everything became clear. I'm glad I read "Renoir's" letter. I didn't think such a thing could happen twice in the same century. — DEGAS.

-:-

Dear Degas: It happened three times in the same century. Another reader dropped a girl he thought was bright after one visit to church.

"I couldn't believe my ears," he wrote. "When she said, 'Father who art in heaven, HALLOWEEN thy name, "I asked her to repeat it. She did — just that way. It was our last date."

Choose Your Time

Dear Ann: Recently in a column you advised parents to tell their children of previous marriages. What about a police record?

When I was 18 I got mixed up with narcotics, was arrested and put on probation for two years. I'm happy to say I beat the tremendous odds and succeeded in straightening around.

It is 10 years later and I am happily married to a good man. We have a young son. I am haunted by the fear that my son may learn of my unsavory history from friends or relatives.

Should I tell the boy about my past? If so — at what age? — LUCKY WOMAN.

-:-

Dear Woman: Tell your son about your past but choose the appropriate time and place.

Better if you can weave the information in with another story, making the central theme "people can change and improve if they work hard at it." And let your son know you are trusting him with an adult-type confidence which he should keep to himself.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self - addressed envelope.

Yankee Sluggers Come To Life, Even Series At 3 All

★ ★ ★

Gibson Vs. Stottlemyre In Finale

By JOE REICHER
Associated Press Sports Writer

ST. LOUIS (AP) — For the seventh time in the last 10 years, the World Series went down to the seventh and final game today with the St. Louis Cardinals and New York Yankees all knotted up at three victories apiece.

The odds favored the Yankees 10-13 although the Cardinals never had lost a seven-game series in four previous appearances. The Yanks, 20-8 in all Series play, had won five of nine in seven games.

And for the third time in this Series, the Cardinals' Bob Gibson and the Yankees' Mel Stottlemyre prepared to match pitches, each seeking his second triumph, with only two days rest.

Playing with their backs to the wall, and in enemy grounds, the American League champions averted elimination Wednesday with an 8-3 victory behind young Jim Bouton featuring some old-time Yankee bombing.

The victim was Curt Simmons, 35-year-old left-hander who vainly sought his first Series triumph. Simmons did well through five innings but ran afoul of the home run bats of Roger Maris and Mickey Mantle, who connected back-to-back in the sixth to break a 1-1 tie.

Joe Pepitone's grand slam climaxing a five-run inning in the eighth put the game on ice and made Bouton the first two-game winner of the Series.

"I'm glad we're playing the last game in this park," said Yankee Manager Yogi Berra, his broad face spread even wider in a large grin.

"The boys seem to hit better here than in Yankee Stadium. The way they hit today, they wish we'd play here all year."

Failure to wind up the Series in six games didn't appear to disturb Johnny Keane, the Cardinal manager.

"I said at the start the Series could go down to the wire," he said. "We're use to this kind of scrambling. We've had to scrap all year so why not now?

"I still think we can win it. We're better off than we were at the start. We have to win only one and in our own park. That should give us the edge."

Keane said he would pay close attention to how Gibson warmed up before the game.

"I don't think the short rest will affect him," he said. "But if I see he doesn't look sharp in his warm-up I'll switch to Sadecki."

Gibson toiled 10 innings in his 5-2 winning effort Monday striking out 13 batters. At that time, he was pitching with his normal three day rest after having been beaten 8-3 in the second game.

Berra had no doubts about his seventh game starter.

"It'll be Stottlemyre," he said. "Whitey (southpaw Whitey Ford) is still hurting. He limbered up during Wednesday's game and told me he couldn't make it. That heel injury he aggravated in the opening game still bothers him."

Berra Elated Over Yankee Plate Power

ST. LOUIS (AP) — The Bronx Bombers had done some real bombing for a change, and Manager Yogi Berra of the New York Yankees couldn't be contained.

"The way the boys hit today," he quipped, "they wish they'd played here all year."

The dreaded Yankee muscle, which had sparkled only occasionally during the previous five games of the World Series, unleashed three home runs in Busch Stadium Wednesday. And the Yanks took an 8-3 victory, pulling even with the St. Louis Cardinals at three games apiece.

"I guess we can take our bags out of the hotel lobby and back into the rooms now," grinned Yankee right-hander, Jim Bouton, who got his second Series victory.

The Yanks struck in a dazzling manner, as the M and M boys — Roger Maris and Mickey Mantle — hammered consecutive homers and Joe Pepitone hit a grand slam to sew up Bouton's win.

The Cardinal starter and loser, left-hander Curt Simmons, gave up the homers to Maris and Mantle in the sixth inning with the score tied, 1-1.

"Outside of those two bombs, my stuff was all right," he said after the game.

"I threw Maris a real bad handing curve ball," Simmons said, "and he hit it out of the park. That pitch to Maris was really upsetting."

Mantle followed Maris.

"I'm very careful with Mantle," Simmons said, "so I really put some speed on that pitch. It was away from Mantle, but he was going with me."

Mantle was intentionally walked in the five-run Yankee eighth inning. He scored, along with two teammates, when Pepitone hammered reliever Gordon Richardson's curve ball for a grand slam. That broke up the game.

"I hadn't been hitting well," said Pepitone, who had only three hits in the Series. "But I just kept swinging. I'm bearing down all the time and when the fans get on me, I bear down a little more.

Big Red Shows 3-2 Record

Potters Still Not In A-1 Condition For Game At Steubenville Friday

The Review Sports

THURSDAY, OCT. 15, 1964 PAGE 20

East Liverpool and Steubenville Big Red renew their gridiron series Friday night after a lapse of a year. Kickoff for Friday's game at Steubenville's Harding Stadium will be 8 p. m.

Big Red got in the last word when the two schools met in 1962 by taking a 44-0 victory with Harry Wilson, Ohio's back of the year, leading the charge.

—:—

COACH BOB McNea's forces aren't in A-1 condition yet with co-captain and tackle Mike Snowden listed as a doubtful starter for the Big Red tilt. Still hobbled by a leg injury is end Bob Burkhart who is scheduled to see limited duty Friday.

Bob Lane, a senior, or Mike Silliman, a junior, will replace Burkhart if he isn't ready.

Ralph Smith, who had moved into a starting halfback position in the second game of the season, was injured in the Steubenville Central contest and it appears he will be out for the remainder of the season.

Big Red doesn't boast of any powerhouse this season as Abe Bryan in his first year as head coach shows a team with a 3-2 record. Bryan had been an assistant at Big Red for 13 years before taking over the top job. One of his assistants this season is Bob Hedmond who was head coach of the Potters last year.

—:—

STEUBENVILLE is just getting over a 58-0 loss to Massillon, last week. The state's No. 1 team didn't score on Big Red until two seconds left in the first quarter but then came on to score 30 points in the second period when Big Red was a victim of fumbles, blocked punts and pass interceptions.

Big Red suffered one other heavy setback this season when Girard handed the Stubbers a 34-0 loss.

The three victories by Steubenville have been over Weirton, 6-0, Cleveland Glenville, 7-0 and Pittsburgh Schenley, 24-8.

—:—

McNEA, who saw Big Red in action against Weirton reports that Steubenville is not big and lacks some experience but they looked tough and hit extremely hard.

The Big Red shows a balanced backfield with letterman Jim Cunningham, a 150-pound junior, the most consistent runner.

At quarterback will be a southpaw passer in John Spon, a 170-pound senior letter winner while another veteran, Bob Smith, 180-pound junior will go at fullback.

—:—

A SOPHOMORE has cracked the starting lineup in Mike Palmer, a 155-pound halfback.

Five of the seven members of the forward wall won letters last season on a team which compiled a 2-8 record.

The only starters on the line who didn't win letters in 1963 are ends Monty Hicks (150) and Jody Burkey (185).

At the tackles will be Byrie Jones (191), and Frank Simmons (190). Lining up at guards will be Jack Ohle (190) and Craig Parris (180) with Jack Beard (175) at center.

Westgaters Win; Jackson Scores Twice

Halfback Mike Jackson scored all of Westgate's points in a 14-0 victory over Beaver Local Wednesday afternoon.

Jackson intercepted a pass early in the first quarter then climaxed a 55-yard drive by running over from five yards out for the TD.

In the second quarter, Jackson scooted 20 yards for six points then added the two-point conversion on a run.

The Westgate standout also had an 80-yard touchdown run called back.

Sam Scott turned in an interception for the Wildcats and Don Hill, Westgate fullback, was singled out for his good job of running.

Beaver Local's deepest penetration carried to the Westgate 20.

The victory leaves Westgate with a 3-0-2 record. Westgate meets its chief rival East Junior High next Thursday at 4:30 at Patterson Field.

The Westgate eighth grade team dropped a 6-0 contest to Steubenville Harding Wednesday at Patterson Field when the visitors scored in the last two minutes of the contest.

Notes Copied At Series

ST. LOUIS (AP) — Figuring The Series:

Tim McCarver, the Cards' catcher, leads both Series teams in slugging with a .762 mark with 16 total bases in 21 times at bat. He has 10 hits including one double, one triple and one home run. Mickey Mantle paces the Yanks with a .750 slugging mark.

★ ★ ★

Joe Pepitone of the Yanks, whose grand-slam homer clinched Wednesday's victory, hit one grand slammer during the regular season—on Aug. 29 off Boston's Earl Wilson.

★ ★ ★

Bill White went hitless in four trips and his average dipped to .043. The Cards' first baseman has collected only one hit in 23 tries during the six games.

★ ★ ★

For the first time in the Series, Carl Warwick of the Cards failed to produce as a pinch-hitter. He fouled out in the seventh inning. He had collected three hits and a walk in four previous efforts.

Bouton Wins 20 The 'Hard Way'

By MIKE RECHT
Associated Press Sports Writer

ST. LOUIS (AP) — The New York Yankees evened the World Series Wednesday and winning pitcher Jim Bouton sat in the clubhouse afterward, a mighty happy — but mighty tired — young man.

"Will you be ready to pitch again Thursday?" asked one of the many reporters throwing questions at the crew-cut right-hander.

Bouton politely sidestepped the question.

"I don't think I've ever pitched nine innings and then relieved the next day," he said. "Anyway, Yogi (Manager Yogi Berra) has plenty of good pitchers ready to go."

But no one could doubt, after Wednesday's triumph, Berra would rather have Bouton well rested to send against the St. Louis Cardinals in the seventh and deciding contest today.

The handsome 25-year-old fireballer had just beaten the Cardinals 8-3 for his second victory in the Series — a victory that kept the Yankees alive.

"I got 20 the hard way," laughed Bouton, an 18-game winner during the regular season. "But I'd rather have it this way than with 20 during the season and none in the World Series. Man, this is great."

Bouton singled home the first Yankee run to tie the score 1-1 and then held off the Cardinals until the New Yorkers found the range on Busch Stadium's nearby fences. Consecutive solo homers by Roger Maris and Mickey Mantle made it 3-1 in the sixth inning and Joe Pepitone's grand slam in the eighth iced it.

Bouton allowed nine hits in 8 1-3 innings, but always had enough to get out of a jam. Steve Hamilton took over with two on and one out in the ninth, gave up a run-scoring single and then got Curt Flood to hit into a game-ending double play.

Temple U. Doctors Plan Tests On Wilt

PHILADELPHIA (AP) — Doctors at Temple University Hospital began tests today in an attempt to diagnose abdominal pains which have kept Wilt Chamberlain, San Francisco Warriors basketball star, out of action.

The 7-foot-1 shooting star checked into the hospital Wednesday night but was not available for comment.

In the 11 years of the Atlantic Coast Conference, Duke has won five football titles and has been co-champion twice.

Cards' Keane Denies Offer By Pittsburgh

ST. LOUIS (AP) Manager Johnny Keane of the St. Louis Cardinals denied a report Wednesday night that the Pittsburgh Pirates had offered him a three-year contract to move there in a similar capacity.

"There's no truth to it," Keane said on the eve of the seventh game of the World Series between the Cardinals and the New York Yankees.

Keane said he will meet with Cardinals officials the day after the World Series to discuss his future with the St. Louis club.

Pirates Manager Danny Murtaugh resigned shortly before the end of the season because of personal health.

Gibson Vs. Stottlemyre In Finale

By JOE REICHER
Associated Press Sports Writer

ST. LOUIS (AP) — For the seventh time in the last 10 years, the World Series went down to the seventh and final game today with the St. Louis Cardinals and New York Yankees all knotted up at three victories apiece.

The odds favored the Yankees 10-13 although the Cardinals never had lost a seven-game series in four previous appearances. The Yanks, 20-8 in all Series play, had won five of nine in seven games.

And for the third time in this Series, the Cardinals' Bob Gibson and the Yankees' Mel Stottlemyre prepared to match pitches, each seeking his second triumph, with only two days rest.

Playing with their backs to the wall, and in enemy grounds, the American League champions averted elimination Wednesday with an 8-3 victory behind young Jim Bouton featuring some old-time Yankee bombing.

The victim was Curt Simmons, 35-year-old left-hander who vainly sought his first Series triumph. Simmons did well through five innings but ran afoul of the home run bats of Roger Maris and Mickey Mantle, who connected back-to-back in the sixth to break a 1-1 tie.

Joe Pepitone's grand slam climaxing a five-run inning in the eighth put the game on ice and made Bouton the first two-game winner of the Series.

"I'm glad we're playing the last game in this park," said Yankee Manager Yogi Berra, his broad face spread even wider in a large grin.

"The boys seem to hit better here than in Yankee Stadium. The way they hit today, they wish we'd play here all year."

Failure to wind up the Series in six games didn't appear to disturb Johnny Keane, the Cardinal manager.

"I said at the start the Series could go down to the wire," he said. "We're use to this kind of scrambling. We've had to scrap all year so why not now?

"I still think we can win it. We're better off than we were at the start. We have to win only one and in our own park. That should give us the edge."

Keane said he would pay close attention to how Gibson warmed up before the game.

"I don't think the short rest will affect him," he said. "But if I see he doesn't look sharp in his warm-up I'll switch to Sadecki."

Gibson toiled 10 innings in his 5-2 winning effort Monday striking out 13 batters. At that time, he was pitching with his normal three day rest after having been beaten 8-3 in the second game.

Berra had no doubts about his seventh game starter.

"It'll be Stottlemyre," he said. "Whitey (southpaw Whitey Ford) is still hurting. He limbered up during Wednesday's game and told me he couldn't make it. That heel injury he aggravated in the opening game still bothers him."

American Team Continues To Pull Upsets; Hayes, Tyus Match Marks

By TED SMITS
Associated Press Sports Editor

TOKYO (AP) — Burly Bob Hayes and Wyomia Tyus matched world sprint records, injured Al Oerter won the gold medal in the discus throw for the third time and Philadelphia's Vesper Boat Club and a New Jersey schoolgirl provided surprise victories today in the Olympic games.

The various victories pushed the United States' leading medal total to 29, 12 gold, nine silver and eight bronze. Russia has 20, seven gold, four silver and nine bronze.

The Philadelphia crew in the premier eight-oar competition had to make a big comeback to grab its gold.

Germany was second and Czechoslovakia third.

And Lesley Bush, a 17-year-old schoolgirl from Princeton, N.J., won the women's platform diving, upsetting the heavily favored Ingred Kramer-Engel of Germany, who finished second. Miss Bush finished with 99.80 points.

Hayes, the 190-pound flash from Florida A&M, solidified his claim as the world's fastest human with a 10-second-flat victory in the 100-meter dash after an earlier, near-incredible 9.9 performance was blown away by a trailing wind.

"That's the second time I've had a 9.9 thrown out," he said. "The other time the wind was blowing pretty good, but this time it was just over the limit."

Helping swell the leading Yankee medal total was the first-place finish of the pair oars with cox Ed Ferry, Seattle; Conn Findley, Belmont, Calif., and cox Kent Mitchell, Berkeley, Calif., who finished the 2,000-meter course in 8:21.33.

Oerter, a 260-pounder from West Babylon, N.Y., shook off his various ailments and won his third consecutive discus gold medal with a toss of 200 feet, 1½ inches, breaking his own Olympic record. Dave Weill, Walnut Creek, Calif., was third at 195-2.

"Every time I threw, it felt like someone was trying to tear out my ribs," said Oerter, who competed with his right side frozen to prevent internal hemorrhaging from torn muscles in his rib cage.

The big noises of this fifth day of the 18th Olympiad, however, were the two magnificent performances by Hayes.

The wind was blowing at just over 5 meters per second when he clocked the 9.9 in the semifinals, but it had subsided when he bolted off the blocks in the finals.

A great gasp went up from the throng of 85,000 in the National Stadium when it was apparent that Hayes—not usually a good starter—was on his way to a great race. He flashed down the track, his churning arms and legs generating great power, and steadily lengthened his lead.

He finished some two yards in front of Enrique Figuerola of Cuba and Harry Jerome of Canada. Jerome shared the world record of 10 flat with Armin Hary of Germany.

Miss Tyus, a tall Tennessee State co-ed, matched the world record held by Wilma Rudolph with an 11.2 performance in winning her heat in the second round of the women's 100-meter.

Two other American girls, Edith McGuire of Atlanta and Marilyn White of Los Angeles, also made it through two rounds and into Friday's semifinals.

The United States also took second in the team standings in modern pentathlon, a second in double sculls and a third in four oars without coxswain.

Dallas Star Expected To Play Sunday

CLEVELAND (AP) — Good news for the Dallas Cowboys. Bad news for the Cleveland Browns.

The latest word from Dallas is that Don Perkins, the National Football League's leading ground-gainer, isn't seriously injured and should be ready for Sunday's game against the Browns in the Cotton Bowl. Perkins injured his ribs last Sunday against the New York Giants.

Before leaving in the fourth quarter, Perkins rushed for 137 yards to take the lead from Jim Brown of the Browns. Perkins now has 458 yards to 420 for Brown.

The Cowboys tied the Giants, 13-13, and are now tied for fourth place with the New Yorkers in the Eastern Division. Both are 1-3-1. The Browns are tied for first place with the St. Louis Cardinals, both at 3-1-1.

Browns' coach Blanton Collier, missing two key defensive veterans, may do some lineup juggling Sunday. Tackle Mike Bundra, obtained from the Minnesota Vikins for a draft choice, may start for Frank Parker, injured last Saturday.

Bundra, former Southern California star, was used late in the Pittsburgh game last Saturday for his first taste of action with the Browns. The three-year NFL veteran has worked with the Browns only two weeks.

Assistant coach Howard Brinker has also been working defensive backs Dave Raimey, Lowell Caylor and Bobby Franklin.

American Team Continues To Pull Upsets; Hayes, Tyus Match Marks

By TED SMITS
Associated Press Sports Editor

TOKYO (AP) — Burly Bob Hayes and Wyomia Tyus matched world sprint records, injured Al Oerter won the gold medal in the discus throw for the third time and Philadelphia's Vesper Boat Club and a New Jersey schoolgirl provided surprise victories today in the Olympic games.

The various victories pushed the United States' leading medal total to 29, 12 gold, nine silver and eight bronze. Russia has 20, seven gold, four silver and nine bronze.

The Philadelphia crew in the premier eight-oar competition had to make a big comeback to grab its gold.

Germany was second and Czechoslovakia third.

And Lesley Bush, a 17-year-old schoolgirl from Princeton, N.J., won the women's platform diving, upsetting the heavily favored Ingred Kramer-Engel of Germany, who finished second. Miss Bush finished with 99.80 points.

Hayes, the 190-pound flash from Florida A&M, solidified his claim as the world's fastest human with a 10-second-flat victory in the 100-meter dash after an earlier, near-incredible 9.9 performance was blown away by a trailing wind.

"That's the second time I've had a 9.9 thrown out," he said. "The other time the wind was blowing pretty good, but this time it was just over the limit."

Helping swell the leading Yankee medal total was the first-place finish of the pair oars with cox Ed Ferry, Seattle; Conn Findley, Belmont, Calif., and cox Kent Mitchell, Berkeley, Calif., who finished the 2,000-meter course in 8:21.33.

Oerter, a 260-pounder from West Babylon, N.Y., shook off his various ailments and won his third consecutive discus gold medal with a toss of 200 feet, 1½ inches, breaking his own Olympic record. Dave Weill, Walnut Creek, Calif., was third at 195-2.

"Every time I threw, it felt like someone was trying to tear out my ribs," said Oerter, who competed with his right side frozen to prevent internal hemorrhaging from torn muscles in his rib cage.

The big noises of this fifth day of the 18th Olympiad, however, were the two magnificent performances by Hayes.

The wind was blowing at just over 5 meters per second when he clocked the 9.9 in the semifinals, but it had subsided when he bolted off the blocks in the finals.

A great gasp went up from the throng of 85,000 in the National Stadium when it was apparent that Hayes—not usually a good starter—was on his way to a great race. He flashed down the track, his churning arms and legs generating great power, and steadily lengthened his lead.

He finished some two yards in front of Enrique Figuerola of Cuba and Harry Jerome of Canada. Jerome shared the world record of 10 flat with Armin Hary of Germany.

Miss Tyus, a tall Tennessee State co-ed, matched the world record held by Wilma Rudolph with an 11.2 performance in winning her heat in the second round of the women's 100-meter.

Two other American girls, Edith McGuire of Atlanta and Marilyn White of Los Angeles, also made it through two rounds and into Friday's semifinals.

The United States also took second in the team standings in modern pentathlon, a second in double sculls and a third in four oars without coxswain.

Dallas Star Expected To Play Sunday

CLEVELAND (AP) — Good news for the Dallas Cowboys. Bad news for the Cleveland Browns.

The latest word from Dallas is that Don Perkins, the National Football League's leading ground-gainer, isn't seriously injured and should be ready for Sunday's game against the Browns in the Cotton Bowl. Perkins injured his ribs last Sunday against the New York Giants.

Before leaving in the fourth quarter, Perkins rushed for 137 yards to take the lead from Jim Brown of the Browns. Perkins now has 458 yards to 420 for Brown.

The Cowboys tied the Giants, 13-13, and are now tied for fourth place with the New Yorkers in the Eastern Division. Both are 1-3-1. The Browns are tied for first place with the St. Louis Cardinals, both at 3-1-1.

Browns' coach Blanton Collier, missing two key defensive veterans, may do some lineup juggling Sunday. Tackle Mike Bundra, obtained from the Minnesota Vikins for a draft choice, may start for Frank Parker, injured last Saturday.

Bundra, former Southern California star, was used late in the Pittsburgh game last Saturday for his first taste of action with the Browns. The three-year NFL veteran has worked with the Browns only two weeks.

Assistant coach Howard Brinker has also been working defensive backs Dave Raimey, Lowell Caylor and Bobby Franklin.

Order Expected Soon In Firm's Gas Rate Case

COLUMBUS, Ohio (AP)—An order could come within the next few weeks—possibly within a month—in the prolonged East Ohio Gas Co. rate case in which the company seeks an annual increase of $35 million.

Jay C. Flowers, counsel for the Utilities Commission, said commission members have indicated they are nearing an end to their study of more than 12,000 pages of testimony in the complicated case.

Hearings, which continued intermittently for about a year, ended last July when the commission took the testimony under advisement.

Flowers said it is possible the hearings could be re-opened, if the commissioners desire, but he said he considered this possibility doubtful.

East Ohio filed more than three years ago for an increase of $1.1 million a year for 800 industrial customers and $33.9 million for commercial and residential customers. The company cited increasing costs as the reason for the boost.

The increase, if approved, would affect customers in 108 communities in Cuyahoga, Summit, Geauga, Mahoning, Wayne, Holmes, Knox, Medina, Columbiana, Portage, Tuscarawas, Stark and Trumbull counties.

Today In History

Today is Thursday, Oct. 15, the 287th day of 1964. There are 77 days left in the year.

Today's highlight in history:

On this date in 1946, 10 top Nazis were hanged in Nuernberg Prison in Germany two hours after Hermann Goering had committed suicide by poison.

On this date

In 1890, the International Brotherhood of Locomotive Engineers was organized at Pittsburgh.

In 1917, the German spy, Mata Hari, was executed by a firing squad.

In 1941, the Nazis reached the outer defenses of Moscow.

In 1945, Pierre Laval died before a firing squad in Paris for treason.

In 1954, a hurricane with 92-mile-an-hour winds struck the Eastern Seaboard, killing 166 persons.

Ten years ago—The Defense Department and the Atomic Energy Commission announced that two parojects were under way for development of nuclear propulsion for large naval vessel. The reference presumably was to aircraft carriers.

Five years ago—The United Steelworkers Union made a new strike-ending proposal to industry — offering a sizable cut in its money demands for a two-year contract.

One year ago—President Ben Bella mobilized Algerian guerrilla forces to meet what he called aggression by Morocco. Chancellor Adenauer retired after 14 years as head of the West German government.

Piccard told a news conference he wants to study the underwater flow of the Gulf Stream and pick up samples of ocean flora.

The trip may take two months, said Piccard, who is attending a meeting of the world federation of underwater activities. He said he would submerge off the coast of Latin America. He didn't say when.

Mrs. Goldwater was in Harrisburg to boost her husband's campaign for president.

Dispute Flared Over Contract

New U.S. Plane Unveiled Packs Political Dynamite

FORT WORTH, Tex. (AP) — The Air Force unveiled today the supersonic F111, a sleek fighter plane designed during the heat of industrial competition and assembled amid a Senate investigation.

Known familiarly as the TFX, the F111 emerges now as a political issue in a stormy presidential election year.

The aircraft made its debut in a brief ceremony at General Dynamics' huge Fort Worth plant.

General Dynamics Corp. joined Grumman Aircraft Engineering Corp. in pursuing the coveted contract, worth eventually in the neighborhood of $6.5 billion.

The award touched off widespread controversy. Charges of favoritism and politics echoed in Congress, the Pentagon and offices of administration leaders.

The dispute centered around a contention that Boeing Co. submitted a superior design while promising considerable long-range production savings.

Secretary of Defense Robert S. McNamara hailed the F111 as the "greatest single step forward in combat aircraft to occur in several decades."

McNamara attended the unveiling of the plane he defended against congressional opposition.

Young Criticizes Rep. Taft On His Record Of Voting

CANTON, Ohio (AP) — Sen. Stephen M. Young, campaigning for re-election, attacked Rep. Robert Taft Jr.'s voting record at a news conference Wednesday.

Also at the news conference, Sen. Daniel Inouye of Hawaii assailed Barry Goldwater's position on nuclear weapons and the John Birch Society.

Both Democrats were here for a $10-a-plate fund-raising dinner of the Stark County Democratic Executive Committee at Meyers Lake Park.

Young said Taft, his GOP opponent, voted against the Johnson anti poverty bill, the income tax cut and Medicare and attempted in committee to scuttle Social Security.

"And I favored them all," the incumbent said.

Inouye charged Goldwater, Republican presidential nominee, with irresponsibility re-responsibility regarding nuclear policy and said his stand on the John Birch Society is wrong.

Many radical minority groups have come out in favor of Goldwater recently, said Inouye, because they see in his thinking the promotion of many radical ideas they favor. He said, however, many Americans also favor Goldwater and do not favor radical groups.

Order Expected Soon In Firm's Gas Rate Case

COLUMBUS, Ohio (AP)—An order could come within the next few weeks—possibly within a month—in the prolonged East Ohio Gas Co. rate case in which the company seeks an annual increase of $35 million.

Jay C. Flowers, counsel for the Utilities Commission, said commission members have indicated they are nearing an end to their study of more than 12,000 pages of testimony in the complicated case.

Hearings, which continued intermittently for about a year, ended last July when the commission took the testimony under advisement.

Flowers said it is possible the hearings could be re-opened, if the commissioners desire, but he said he considered this possibility doubtful.

East Ohio filed more than three years ago for an increase of $1.1 million a year for 800 industrial customers and $33.9 million for commercial and residential customers. The company cited increasing costs as the reason for the boost.

The increase, if approved, would affect customers in 108 communities in Cuyahoga, Summit, Geauga, Mahoning, Wayne, Holmes, Knox, Medina, Columbiana, Portage, Tuscarawas, Stark and Trumbull counties.

Today In History

Today is Thursday, Oct. 15, the 287th day of 1964. There are 77 days left in the year.

Today's highlight in history:

On this date in 1946, 10 top Nazis were hanged in Nuernberg Prison in Germany two hours after Hermann Goering had committed suicide by poison.

On this date

In 1890, the International Brotherhood of Locomotive Engineers was organized at Pittsburgh.

In 1917, the German spy, Mata Hari, was executed by a firing squad.

In 1941, the Nazis reached the outer defenses of Moscow.

In 1945, Pierre Laval died before a firing squad in Paris for treason.

In 1954, a hurricane with 92-mile-an-hour winds struck the Eastern Seaboard, killing 166 persons.

Ten years ago—The Defense Department and the Atomic Energy Commission announced that two parojects were under way for development of nuclear propulsion for large naval vessel. The reference presumably was to aircraft carriers.

Five years ago—The United Steelworkers Union made a new strike-ending proposal to industry — offering a sizable cut in its money demands for a two-year contract.

One year ago—President Ben Bella mobilized Algerian guerrilla forces to meet what he called aggression by Morocco. Chancellor Adenauer retired after 14 years as head of the West German government.

Piccard told a news conference he wants to study the underwater flow of the Gulf Stream and pick up samples of ocean flora.

The trip may take two months, said Piccard, who is attending a meeting of the world federation of underwater activities. He said he would submerge off the coast of Latin America. He didn't say when.

Dispute Flared Over Contract

New U.S. Plane Unveiled Packs Political Dynamite

FORT WORTH, Tex. (AP) — The Air Force unveiled today the supersonic F111, a sleek fighter plane designed during the heat of industrial competition and assembled amid a Senate investigation.

Known familiarly as the TFX, the F111 emerges now as a political issue in a stormy presidential election year.

The aircraft made its debut in a brief ceremony at General Dynamics' huge Fort Worth plant.

General Dynamics Corp. joined Grumman Aircraft Engineering Corp. in pursuing the coveted contract, worth eventually in the neighborhood of $6.5 billion.

The award touched off widespread controversy. Charges of favoritism and politics echoed in Congress, the Pentagon and offices of administration leaders.

The dispute centered around a contention that Boeing Co. submitted a superior design while promising considerable long-range production savings.

Secretary of Defense Robert S. McNamara hailed the F111 as the "greatest single step forward in combat aircraft to occur in several decades."

McNamara attended the unveiling of the plane he defended against congressional opposition.

Young Criticizes Rep. Taft On His Record Of Voting

CANTON, Ohio (AP) — Sen. Stephen M. Young, campaigning for re-election, attacked Rep. Robert Taft Jr.'s voting record at a news conference Wednesday.

Also at the news conference, Sen. Daniel Inouye of Hawaii assailed Barry Goldwater's position on nuclear weapons and the John Birch Society.

Both Democrats were here for a $10-a-plate fund-raising dinner of the Stark County Democratic Executive Committee at Meyers Lake Park.

Young said Taft, his GOP opponent, voted against the Johnson anti poverty bill, the income tax cut and Medicare and attempted in committee to scuttle Social Security.

"And I favored them all," the incumbent said.

Inouye charged Goldwater, Republican presidential nominee, with irresponsibility responsibility regarding nuclear policy and said his stand on the John Birch Society is wrong.

Many radical minority groups have come out in favor of Goldwater recently, said Inouye, because they see in his thinking the promotion of many radical ideas they favor. He said, however, many Americans also favor Goldwater and do not favor radical groups.

Junior Editors Quiz on ESKIMO HOUSES

QUESTION: What are Eskimo houses made of?

★ ★ ★

ANSWER: The Eskimo snow igloo (1) is so well known that many people think. Eskimos live in snow houses and nothing else. But these wonderfully ingenious little dome-shaped homes are mostly built in the central Canadian Arctic region, where there is an absence of other materials. Using long bone snow knives, Eskimos slice blocks of closely-packed snow and lay these on edge in a spiral, winding up and sloping inward. A single key block is fitted on top. The entrance leads down first, and then up, conserving the heat. A sleeping platform of packed snow, with skins piled on it, acts like a bed. These houses are warmed with seal and whale oil, burned in lamps made of stone or pottery, over which the cooking is done. Such snow igloos are winter dwellings. Some families build them in a community near the sea, where fish and seals can be caught. In summer, the families separate, many striking inland to follow the caribou, which give them valuable hide and fur as well as meat. On these journeys they live in skin tents, some as in (2), others shaped like an Indian tepee. Where it is possible to obtain driftwood or flat stones. Eskimos will build winter houses of sod piled over an inner structure (3).

★ ★ ★

FOR YOU TO DO IT: Compare these tiny Eskimo dwellings, where seven or eight people live crowded together in a space about 10 feet square, with your own house where you have so much room and comfort.

Historical Groups Plan To Mark 2 Canal Tunnels

The big and little tunnels of the Sandy & Beaver Canal will be marked by an Ohio historical site marker in public ceremonies to be held at 2 p. m. Oct. 24, a mile east of Hanoverton.

The Ohio Historical Society, the Columbiana County Historical Association and the Canal Society of Ohio are co-sponsors of the project. Civic leaders will take part in the dedicatory program.

The Sandy and Beaver Canal was designed to make navigation possible between Pittsburgh and Cleveland by connecting the Ohio River with the Ohio and Erie Canal.

Construction on the Sandy and Beaver began in 1834 but not until 1850 was it opened for commercial use. The last boat to pass through the tunnels was "The Hibernian" in the spring of 1852.

The marker text is:

"Southeast of this point are the Big and Little tunnels. They were links in the 73-mile Sandy and Beaver Canal which connected the Ohio River with the Ohio and Erie Canal. Shifts of Irish laborers worked day and night with hand drills and blasting powder to cut the 1,060-yard Big Tunnel which opened for commercial use in 1850 and was abandoned two years later, a victim of the railroad."

Radeschi Issues Tips

It's Time To Prepare Car For Winter, Chief Warns

Wise motorists will believe the calendar, not the recent unseasonably warm temperatures, and prepare cars now for winter driving, Police Chief A. J. Radeschi warned East Liverpool district residents today.

When mid - October comes, the first snow of the season is not far behind and motorists whose cars are not equipped with good snow tread tires may be embarrassed by causing traffic tieups, he cautioned.

The chief issued a series of tips for safe winter driving and recommendations for cold weather car conditioning sanctioned by the National Safety Council and the International Association of Chiefs of Police.

Fresh windshield wiper blades are required on many autos to provide proper visibility when driving in snow or to help remove morning frost, the chief said. Blade arm pressure should be not less than an ounce for each line of blade length, he pointed out.

Installation of high - temperature winter thermostats will put new punch in a car's heating and defrosting system and help keep frosted windows clear, he said. But drivers must take time to scrape badly frosted windows if the car has been outside all night, he added.

Proper traction is the key to safe driving on snow and ice, Chief Radeschi said. On dry pavement, at 20 miles an hour, an auto will halt in 20 feet. But on glare ice it will require almost 200 feet to halt at the same speed, he added.

Slippery patches tend to occur at the approaches to intersections and to linger on bridges and overpasses, he reminded.

Snow tires help traction, but tire chains are better, the chief pointed out. Letting air out of the tires in hopes of boosting traction "is worse than useless," he added.

Safety Council tests have shown that light, compact cars tend to outperform heavier vehicles in braking on ice, but the larger cars have better cornering ability, the chief said.

Pumping the brakes is more effective than applying them abruptly on slippery pavement, he added.

If rear wheels skid, turn the steering wheel in the direction of the skid just enough to correct the slide without "fishtailing," he reminded.

A driver held fast by a seat belt can maintain control better, the chief said.

"Driving a properly - equipped car — and driving it safely — won't shorten the winter by a single day, but it will make it seem a lot shorter," he commented.

Woman's Probation Request To Be Studied

LISBON — A probation investigation was ordered Wednesday by Common Pleas Judge Raymond S. Buzzard for Carol Jones of East Palestine, who changed her plea to guilty to passing a fraudulent $13.46 check last May 15 at Hill's Shoe Store in East Palestine.

She pleaded not guilty at arraignment Sept. 28 but changed her plea and asked probation. Probation Officer Richard Rose will investigate and report.
